Twentieth-century Western Writers

Geoff Sadler 1991
Contains alphabetically arranged entries that provide information about nearly five hundred twentieth-century writers of Western fiction, each featuring a biography, a bibliography, a signed critical essay, and, in some cases, comments from the author. Includes a title index.

Gun Laws of America Alan Korwin 1995 States federal gun laws word-for-word and gives a plain English summary of each.

Firearm Laws Volume 1: Federal Infringements Gary B. Wells 2020-01-11 This book details the federal laws regarding firearms in an easy-to-understand format. It explains when an item becomes a firearm, persons who are prohibited from owning

firearms, locations where firearms are prohibited, the transportation and transfer of firearms, the requirements for obtaining and maintaining federal firearm licenses, the requirements and processes for importing and exporting firearms, and the laws under the National Firearms Act for machine guns, short-barreled rifles and shotguns, and suppressors.

Gun control Franklin E. Zimring 1988

Law of the Gun Martin H. Greenberg 2010-11-01 One Man. One Gun. One Law. It's an American icon: the Western shootist, living by skill, courage and a willingness to spit in death's eye. Now, the greatest names in Western literature turn this mythical character upside down, inside out and every way but loose. . . In *The Trouble with Dude*, award-winning author Johnny Boggs saddles a once-famous lawman with some high-paying New

York dudes in search of Western thrills who get more than they bargained for; in Uncle Jeff and the Gunfighter Western master storyteller Elmer Kelton chronicles a quarrel between a hardscrabble Texas rancher and a killer for hire--with results that stun a town. . . William W. Johnstone and J.A. Johnstone offer *Inferno: A Last Gunfighter Story* featuring series hero Frank Morgan. From a pistol-packing woman to a freed slave heading into a Nebraska winter and an education in gun fighting, *The Law Of The Gun* is about journeys, vendettas, stand-offs, and legends that end--or sometimes just begin--with the roar of a gun. . .

Gun Control Legislation

William J. Krouse 2012-06-12 Congress has debated the efficacy and constitutionality of federal regulation of firearms and ammunition, with strong advocates arguing for and against greater gun control. Since March 2011, much of the gun control debate in the 112th Congress has swirled around

allegations that the Department of Justice (DOJ) and the Bureau of Alcohol, Tobacco, Firearms and Explosives (ATF) mishandled a Phoenix, AZ-based gun trafficking investigation known as "Operation Fast and Furious." In the Consolidated and Further Continuing Appropriations Act, 2012 (P.L. 112-55), Congress included a provision that reflects a Senate-adopted amendment that forbids the expenditure of any funding provided under it to be used by a federal law enforcement officer to transfer an operable firearm to a person known or suspected to be connected with a drug cartel without that firearm being continuously monitored or controlled. The act, however, does not include language adopted during House full committee markup to prohibit ATF from collecting multiple long gun sales reports in Southwest border states. Meanwhile, Congress continues to consider the implications of Operation Fast and Furious and several gun

control issues. On May 10, 2012, the House passed a measure (H.R. 5326) that would fund ATF for FY2013. On April 19, 2012, the Senate Committee on Appropriations also reported a bill (S. 2323) that would fund ATF for FY2013. Both bills include several gun control-related provisions. On April 17, 2012, the House passed the Sportsmen's Heritage Act of 2012 (H.R. 4089), a bill that would prohibit any federal agency from banning recreational shooting on federally managed public lands. On November 16, 2011, the House passed a bill (H.R. 822) that would establish a greater degree of reciprocity between states that issue concealed carry permits for handguns to civilians than currently exists under state law. On October 11, 2011, the House passed a Veterans' Benefits Act (H.R. 2349) that would prohibit the Department of Veterans Affairs from determining a beneficiary to be mentally incompetent for the purposes of gun control, unless

such a determination were made by a judge, magistrate, or other judicial authority based upon a finding that the beneficiary posed a danger to himself or others. In May 2011, firearms-related amendments to bills reauthorizing the USA PATRIOT Act were considered (H.R. 1800, S. 1038, and S. 990), but they were not passed. The tragic shootings in Tucson, AZ, on January 8, 2011, in which 6 people were killed and 13 wounded, including Representative Gabrielle Giffords, have also generated attention. Several Members introduced proposals that arguably address issues related to the shooter's mental illness and drug use (see S. 436/H.R. 1781) and his use of large capacity ammunition feeding devices (LCAFDs) (see H.R. 308 and S. 32), as well as a proposal to ban firearms within the proximity of certain high-level federal officials (see H.R. 367 and H.R. 496). This report concludes with discussion of other salient and recurring gun control issues that have generated past congressional

interest. Those issues include (1) screening firearms background check applicants against terrorist watch lists, (2) reforming the regulation of federally licensed gun dealers, (3) requiring background checks for private firearms transfers at gun shows, (4) more-strictly regulating certain firearms previously defined in statute as "semiautomatic assault weapons," and (5) banning or requiring the registration of certain long-range .50 caliber rifles, which are commonly referred to as "sniper" rifles. To set these and other emerging issues in context, this report provides basic firearms-related statistics, an overview of federal firearms law, and a summary of legislative action in the 111th and 112th Congresses.~

Six-Gun Law - Westerns of the 1950s: The Classic Years Barry Atkinson There are no two ways about it-the 1950s was the decade in which the American Western flourished and attained an absolute peak of perfection. So cowboy, saddle up, strap on your shooters, grab your rifle, and

get ready to ride into a hot, dusty and highly dangerous universe populated by not-so-good guys bent on vengeance, cowardly townfolk, bad hombres, rebellious Native Americans, glamorous dames in distress, evil land-grabbers, corrupt saloon owners, masked raiders, outlaw gangs, rustlers, psychotic villains, bank and stage holdups, train robberies, wagon trains under attack, cattle barons feuding with sheep farmers, ghost towns, gripping gunfights, bruising fistfights, crooked town officials, stand-alone lawmen, gun-toting ladies, cold-hearted killers, stampeding cattle and horses, comical sidekicks, cavalry battles, engaging 10-year-olds as tough as the adults, lone, trigger-happy strangers met with slit-eyed suspicion and towns where trouble lurks on every dusty street corner, all set against America's striking natural scenery and mostly shot with an expertise unknown to a generation of 21st-century moviegoers fed on a never-ending diet of CGI-dominated

movies with nary a Stetson or horse in sight. The 1950s was the decade in which Western movies thrived and reigned supreme; this volume hopefully, and conclusively, sets out to prove it. Six-Gun Law 3 covers 446 movies, contains over 450 photos, and is an essential reference for every Western fan.
