

Gunks Trails A Rangers Guide To The Shawangunk Mountains

The Gunks (Shawangunk Mountains) Ridge and Valley Towns Through Time

Ronald G. Knapp 2015 "The Shawangunk Mountains -- The Gunks -- are renowned for stunning landscapes on and off the ridge in a region that has remained a favorite destination for visitors since the middle of the nineteenth century. While the mountain elevations are not high -- nowhere exceeding 2,240 feet -- they present rugged topography with glistening grey-white escarpments, jumbled boulders at the base of cliffs, deep crevices, as well as precipitation-fed "sky lakes." Arnold Guyot, the first Professor of Geology and Geography at Princeton University, remarked in 1887 that "Few spots on our continent unite so much beauty of scenery, both grand and lovely, within so small a

compass, to be enjoyed with so much ease," a sentiment echoed by many today. Framing the Gunks are the valleys of the Rondout Creek and the Wallkill River where one finds New Paltz, which lays claim to being "one of the oldest towns in America" because of the stone houses aligned along Huguenot Street, as well as quaint hamlets like Gardiner, Rosendale, Accord, High Falls, and Marbletown. For the most part, these are lively, even cosmopolitan places, a mixture of old families and newcomers, many of whom arrived as second-homers from new York City."-- Back cover.

An Unforgiving Land Robi Josephson 2013 Well-illustrated history of a small, hardscrabble community in the Shawangunk Mountains of New York's Ulster County where today's Mohonk Preserve and Minnewaska State Park

Preserve now lie. From early post-Revolutionary days through World War II, a few hardy families scratched out a living atop the mountain, defying an unforgiving and isolated terrain. For generations they lived off the land, working subsistence farms and harvesting raw materials from the forest and earth, having only each other to rely upon. Today only a few vestiges of this proud and independent community remain. The rest has vanished along with the way of life that sustained it, but in the pages of this book Robi Josephson and Bob Larsen breathe life into this lost world and the people who once called it home. This long-awaited work tells the remarkable story of the Trapps people and how the hamlet was honored with placement on the National and State Registers of Historic Places—the first time New York State has recognized the historic importance of a vanished, hardscrabble community.

Where the Wild Things Were

William Stolzenburg

2011-01-15 For years, predators like snow leopards and white-tipped sharks have been disappearing from the top of the food chain, largely as a result of human action. Science journalist Will Stolzenburg reveals why and how their

absence upsets the delicate balance of the world's environment.

A Youth Wasted Climbing

David Chaundy-Smart
2015-05-04 David Chaundy-Smart took it as a compliment when his high school vice-principal told him he was wasting his youth by climbing. Here, he tells the story of how he and his brother, Reg, spent the last years of the 1970s fighting suburban boredom to become, in the words of renowned climbing historian Chic Scott, "one of the leading figures in Ontario rock climbing throughout the 1980s." With its vivid accounts of short and nasty climbs, dubious mentors, hapless climbing partners, teenage crushes, bad cars, underage drinking and questionable climbing techniques, this is a memoir of coming of age in a simpler era of climbing, told with compassion, humour and insight.
