Historic Streets and Squares Melanie Backe-Hansen 2013-11-01 In this picturesque exploration of Britain's constructed landscape, an array of medieval lanes, Georgian crescents and Victorian squares make an appearance, together with the people - famous, infamous and unfamiliar - who designed, built and lived in them. From Bedford Square and Portobello Road in London, through to Grey Street in Newcastle and Charlotte Square in Edinburgh, *Historic Streets and Squares* takes you over the doorstep of some of the country's most familiar addresses. Melanie Backe-Hansen takes us beyond the facades, delving into the evolution of ancient streets, the aspirations of builders and architects, and the extraordinary lives of past residents. She also reveals the fascinating stories of how some of our oldest and most valued crescents, lanes and avenues have survived into the twenty-first century, and the twists and turns of their journey along the way. Taken together, these fifty examples tell us much about Britain's urban development over the centuries, while also highlighting more recent attempts to preserve our architectural heritage. The history of our streets, avenues, lanes and squares reveals more than just changes to architectural style, but offers a doorway into the heritage of our nation.

The House of Twenty Thousand Books Sasha Abramsky 2017-03-28 A tender and compelling memoir of the author's grandparents, their literary salon, and a way of life that is no more. The House of Twenty

Thousand Books is the story of Chimen Abramsky, an extraordinary polymath and bibliophile who amassed a vast collection of socialist literature and Jewish history. For more than fifty years Chimen and his wife, Miriam, hosted epic gatherings in their house of books that brought together many of the age's greatest thinkers. The atheist son of one of the century's most important rabbis, Chimen was born in 1916 near Minsk, spent his early teenage years in Moscow while his father served time in a Siberian labor camp for religious proselytizing, and then immigrated to London, where he discovered the writings of Karl Marx and became involved in left-wing politics. He briefly attended the newly established Hebrew University in Jerusalem, until World War II interrupted his studies. Back in England, he married, and for many years he and Miriam ran a respected Jewish bookshop in London's East End. When the Nazis invaded Russia in June 1941, Chimen joined the Communist Party, becoming a leading figure in the party's National Jewish Committee. He remained a member until 1958, when, shockingly late in the day, he finally acknowledged the atrocities committed by Stalin. In middle age, Chimen reinvented himself once more, this time as a liberal thinker, humanist, professor, and manuscripts' expert for Sotheby's auction house. Journalist Sasha Abramsky re-creates here a lost world, bringing to life the people, the books, and the ideas that filled his grandparents' house, from gatherings that included Eric Hobsbawm and Isaiah Berlin to books with Marx's handwritten notes, William Morris manuscripts and woodcuts, an early sixteenth-century Bomberg Bible, and a first edition of Descartes's *Meditations*. The House of Twenty Thousand Books is a wondrous journey through our times, from the vanished worlds of Eastern European Jewry to the cacophonous politics of modernity. The House of Twenty Thousand Books includes 43 photos. *The Perfect London Walk* Daniel Curley 1986-01-01 Describes a walking tour in London, off the beaten path, and shares observations on British

customs and history, and points of interest along the way.

An Historical Geography of Railways in Great Britain and Ireland David Turnock 2016-12-05 Although a great deal has been published on the economic, social and engineering history of nineteenth-century railways, the work of historical geographers has been much less conspicuous. This overview by David Turnock goes a long way towards restoring the balance. It details every important aspect of the railway's influence on spatial distribution of economic and social change, providing a full account of the nineteenth-century geography of the British Isles seen in the context of the railway. The book reviews and explains the shape of the developing railway network, beginning with the pre-steam railways and connections between existing road and water communications and the new rail lines. The author also discusses the impact of the railways on the patterns of industrial, urban and rural change throughout the century. Throughout, the historical geography of Ireland is treated in equal detail to that of Great Britain.

Transactions of the Hampstead Antiquarian and Historical Society for the Years 1902-1903 Hampstead Antiqua And Historical Society 2017-09-07 Trieste Publishing has a massive catalogue of classic book titles. Our aim is to provide readers with the highest quality reproductions of fiction and non-fiction literature that has stood the test of time. The many thousands of books in our collection have been sourced from libraries and private collections around the world. The titles that Trieste Publishing has chosen to be part of the collection have been scanned to simulate the original. Our readers see the books the same way that their first readers did decades or a hundred or more years ago. Books from that period are often spoiled by imperfections that did not exist in the original. Imperfections could be in the form of blurred text, photographs, or missing pages. It is highly unlikely that this would occur with one of our books. Our extensive quality control ensures that the readers of Trieste Publishing's books will be delighted with their purchase. Our staff has thoroughly reviewed every page of all the books in the collection, repairing, or if necessary, rejecting titles that are not of the highest quality. This process ensures that the reader of one of Trieste

Publishing's titles receives a volume that faithfully reproduces the original, and to the maximum degree possible, gives them the experience of owning the original work. We pride ourselves on not only creating a pathway to an extensive reservoir of books of the finest quality, but also providing value to every one of our readers. Generally, Trieste books are purchased singly - on demand, however they may also be purchased in bulk. History of the Town of Hampstead, N. H Isaac W. Smith 2015-06-27 Excerpt from History of the Town of Hampstead, N. H: For One Hundred Years By your invitation, I am to speak of our honored forefathers; of men whose lives were the history of our own homes - whose characters were indissolubly identified with the Revolution of our Independence. To us this day is doubly interesting. We have met to celebrate the anniversary of our Nation's birth; to pay a passing tribute to those who stood up manfully in the strife for freedom, and nobly gave their lives, to lay deep the foundations of that Government, under which we live in such perfect security of life and liberty. We have also met to celebrate an event in which we are peculiarly interested. A century is just completed, since a handful of hardy settlers were honored with an Act from King George II, incorporating this place with the privileges and conveniences of a municipal government. We have met to recount the early history of

our town; to rescue from oblivion the names of its settlers; to honor the memory of its most worthy inhabitants; and to show our love and veneration for the spot "where our eyes first saw the light," or to which, from a long residence within its limits, we have become ardently attached. Circles and Squares Caroline Maclean 2021-05-27 A spellbinding portrait of the Hampstead Modernists, threading together the lives, loves, rivalries and ambitions of a group of artists at the heart of an international avant-garde. Hampstead in the 1930s. In this peaceful, verdant London suburb, Barbara Hepworth and Ben Nicholson have embarked on a love affair – a passion that will launch an era-defining art movement. In her chronicle of the exhilarating rise and fall of British Modernism, Caroline Maclean captures the dazzling circle drawn into Hepworth and Nicholson's wake: among them Henry Moore, Paul Nash, Herbert Read, and famed émigrés Walter Gropius, founder of the Bauhaus, and Piet Mondrian, blown in on the winds of change sweeping across Europe. Living and working within a few streets of their Parkhill Road studios, the artists form Unit One, a cornerstone of the Modernist movement which would bring them international renown. Drawing on previously unpublished archive material, Caroline Maclean's electrifying *Circles and Squares* brings the work, loves and rivalries of the Hampstead Modernists to life as never before, capturing a brief moment in time when a new way of living seemed possible. United in their belief

in art's power to change the world, her cast of trailblazers radiate hope and ambition during one of the darkest chapters of the twentieth century.
