Imago Journey Lairy Wilcox 2013-09 The Journey of Awakening... The Journey of Awakening is a simple but Radical Inquiry into the self-imposed illusion that creates individual suffering resulting from the experience of separateness. The experience of separateness results from the believing ourselves to be something other than what we actually are. This illusion can be dispelled by realizing the impermanence and illusory nature of the self. When this realization is profound, we are freed to live a life to its fullest as the Radiant Boundless Awareness that is our true nature. This book explores this real possibility through the actual journey made by the Author and the process as it unfolded in his life. "Several years ago my journey came to an abrupt end with the occurrence of a profound and permanent paradigm shift in my awareness. The old paradigm of experiencing myself as being an individual entity located and identified by a library of knowledge of who I believed myself to be, to an experience of a vast expansive sense of being connected with everything as a play of Radiant Being. Initially, profoundly disoriented by the impact of finding myself in this radically new dimension of Being, I began to write down my experience to help me understand and make sense out of what was apparently happening. Years later I was encouraged to share this experience with others. The Discovery of Presence... There are moments in most all of our lives when, quite unexpectedly and out of nowhere, some unknown force of Stillness abruptly interrupts the time and space of our normal stream of conscious experience, dropping us into a profound moment of Quietness; revealing a Silent sense of wonder and awe at the sheer beauty of existence Itself. It is as if some magical Presence from another realm has reached through a tear in the fabric of our personal reality, creating a portal of access

through which to caress us and make Itself known. There is an ensuing shift in perception; an amplification of feeling; a kind of cl

The Dance of Illusion Evelyn Pretkus
2021-08-29 The Dance of Illusion story covers the topics of courage, change and the power of choice in a way that has never been done before. Imagine the possibility we are all impaired at birth with the blessing of forgetfulness to the universal truth that separation is The Dance of Illusion and where there is love, Divine Love, there is no separation. This story calls humanity forward to awaken from an unidentified silent epidemic of an addiction to suffering caused by an underlying, unrecognized belief system rooted in separation. What is required as the entrance ticket to new beginnings in life? It is for the reader to answer an invitation to love, Divine Love that stands the test of time, with a resounding YES. Ultimately, The Dance of Illusion proposes a new way of living in the 21st century and beyond; to learn and live in joy, with suffering a distant memory of the past. This is a story laced empowerment, hope and new beginnings. This is one woman's true story about awakening to something more in life and how to navigate through many sunrise and sunsets to find true love, Divine love that is found on a journey within. The basic universal truth offered for consideration throughout the story is that we are human beings having a spiritual experience. What is important along the way is to discover the building blocks of truth both personal and universal to rise out of tragedy to experience triumph. What is triumph you might ask? From the author's point of view, it is the joy of living in freedom without suffering with great passion while consciously creating life with Divine Love as the foundation of faith upon which we stand. Every element of the story showcases an innovative, breakthrough process on how to thrive through difficult times of chaos and change, and how to quiet the passions of the mind in ways that are previously unimaginable and unavailable to millions of people today. The reader is encouraged to ask and seek the answer to a tough question, "How do we create peace in the world when so many millions of us are at war, an invisible war, an attack unrecognized within our own being, perhaps even sleepwalking through life?" The described

paradigm creates the set up for denying the time to question the true meaning of life on earth beyond the obvious. In midlife, the author asked herself the question, "Who am I at the core of my being?" The answers sought were beyond the field of right and wrongdoing, beyond make a living and beyond material possessions. While this sounds serious and it is, there are many stories shared that will leave the reader laughing and asking for more. Time may just be the new currency of wealth in the 21st century. It is the author's perspective; it is what we consciously choose to do with time, that is up for investigation throughout this story. In midlife, the author found herself in emotional and financial crisis which, unexpectedly led to a spiritual emergency. After experiencing great loss, she found herself experiencing deep depression, anxiety and nagging, never ending suicidal thoughts. Having been raised Catholic, she found herself feeling separate from God, family and everyone she loved. This is a story that has never been told before about suicide from a spiritual perspective. This is a must read for those who suffer from depression, anxiety and suicidal tendencies, those who love them and professionals who help them.

It's All an Illusion! Raveena Nash 2009-03 This book is for all those who are searching for meaning in life. For those who are trying to make sense out of a seemingly meaningless world. For those who ask themselves: What is it all about? This book is also for those who have picked up the self-study course entitled A Course in Miracles (ACIM) and then put it down because what it is saying is just too difficult for them to believe, because what it is saying is unsubstantiated by other belief systems. In writing this book I am hoping to show the reader that the teachings of ACIM are not that inconceivable or far-fetched and that there are many sages around the world whose teachings are very similar. I am a student who has spent many years searching, studying and groping in the dark for a light to switch on that would make it all clear to me. I found that light not so long ago when I began to study A Course in Miracles. If I am able to share some of that light with others then I will be honoured and joyful and my

life will finally begin to make sense to me. So this book is about shedding a little light on what to me is the only thing that does make sense in this world around us - illusion! It's All An Illusion! is a comparative study of the topic of illusion as expounded in A Course in Miracles, Buddhism, Hinduism and other belief systems. In the book I explore the topic of illusion in great detail and have included numerous quotations from other books and scriptures. I have also included interviews with a Hindu teacher, two Buddhist monks and ACIM teacher I would classify It's All An Illusion! as a self-help/MBS book and it is aimed at people who may have picked up ACIM and thought that it was all too far-fetched to believe. It is also aimed at people who are interested in MBS books but who may know nothing about ACIM. I also think it would be useful to ACIM followers because the teachings of ACIM are simplified and explained in the book.

The Conquest of Illusion J J Van Der Leeuw 2019-02-10 Certain books should be required reading for serious spiritual seekers, I think, and *The Conquest of Illusion* is one of them.

Knowledge of its existence came down to me through my primary spiritual mentor, Richard Rose, who used to crisscross the country in the 1930s in search of teachers and information about spiritual enlightenment. The story goes that one day he was talking to a cab driver who had similar spiritual interests and asked him if he'd found any teachers or books of value. The cabbie said, "Yeah. One teacher, Alfred Pulyan, and one book, *The Conquest of Illusion*." Van der Leeuw writes with the unmistakable perspective of an enlightened master, always grounded in a personal experience of Truth. No matter how deeply into the details of philosophy he leads us, he always circles back to That Which Is. He expounds on each problem of philosophy so evenly and so well you think he's putting forth his own belief. Then he comes back to Truth and pulls the rug out from under everything he just carefully explained.

Illusions Richard Bach 2012-08-01 In the cloud-washed airspace between the cornfields of Illinois and blue infinity, a man puts his faith in the propeller of his biplane. For disillusioned writer and itinerant barnstormer Richard Bach, belief is as real as a full tank of gas and sparks

firing in the cylinders...until he meets Donald Shimoda--former mechanic and self-described messiah who can make wrenches fly and Richard's imagination soar.... In *Illusions*, the unforgettable follow-up to his phenomenal bestseller *Jonathan Livingston Seagull*, Richard Bach takes to the air to discover the ageless truths that give our souls wings: that people don't need airplanes to soar...that even the darkest clouds have meaning once we lift ourselves above them... and that messiahs can be found in the unlikeliest places--like hay fields, one-traffic-light midwestern towns, and most of all, deep within ourselves.

The Harvest of the Saints Jim Wainscott 2018-09-13 *The Harvest of the Saints* was written to reintroduce and examine the "harvest concept," an end-time rapture theory that has remained hidden in the shadows for over a century. Unlike most rapture scenarios that rely upon a limited framework of supporting Scripture, the harvest concept is based on a compelling body of biblical evidence that also provides insight into other related end-time events. Specific topics include — the clearly defined Old Testament blueprint of a traditional harvest and its application to an end-time harvest of the saints, — why Jesus will come both as a thief in the night and visibly in the clouds as our conquering King, — the importance of overcoming and the prospect of escaping "the hour of trial which shall come upon the whole world, to test those who dwell on the earth" (Rev. 3:10), — why outer darkness and the lake of fire represent two separate areas of confinement established to serve two entirely different purposes, and — the ordered sequence of end-time events, their purposes, and their interrelationships. Please join me as we bring the "harvest concept" out of the shadows and into the light where we can "test all things; [and] hold fast what is good" (1 Thess. 5:21). Jim Wainscott
God Is an Illusion Forest Grace 2011-11 This book is a guide for individuals who seek spiritual

meanings in their daily activities. Indeed, the most important spiritual quest for a human adult is to find the best way to live a meaningful life. No wonder this subject is the focus of most wisdom traditions of the world. These traditions were originated at various times in our history and from different parts of the world; most importantly they share the same core message. Here, the best way for one to live is to experience his or her being, but this must be done with complete genuineness. Elegantly expressed by the symbol of the forever coexisting Yin and Yang, this being is a state of duality simply termed as body (self) coexisting with the spirit (Self). When one is genuinely experiencing this duality, he or she is enlightened according to Buddha, or in transcendence according to Hinduism, or in the Kingdom of God according to Jesus. Though named differently, these states of mind are all the same.

The Grand Illusion Brendan D. Murphy 2012 *The Grand Illusion (TGI)* synthesizes the paranormal with today's hard science, seeking to initiate a dramatic reempowering of humanity. You'll no longer consider yourself just a powerless little "meat computer" destined for total annihilation at life's biological end; that outmoded worldview is firmly buried by the material set out within. Here, new and expansive vistas of possibility are laid bare; the forces and energies produced by our consciousness that act on the world around us are blown open for your understanding. Did you know that modern neuroscience considers the brain as a receiver of consciousness rather than the generator of it? Get ready for an introduction to the mysterious "fifth force" known to science—a virtually unshieldable "carrier wave" of consciousness that can travel at speeds far exceeding light. With the knowledge that we are incredible and immortal spiritual beings temporarily inhabiting a dream-like, multidimensional, holographic reality, we can indeed begin to turn life on this planet—which, for many, is a virtual nightmare—into *The Grand Illusion*. Are you ready to meet yourself? "A masterpiece. If *The Grand Illusion* were merely paradigm-destroying, which it certainly is for rearguard scientific 'Funda-materialists,' it would be a satisfying read. Fortunately, for those of us dedicated to establishing a new

civilization of consciousness, Brendan Murphy's fascinating, inspiring and seminal work also opens the door to a world of new creative possibilities. ... The Grand Illusion is mind-blowing." -Sol Luckman, author of Potentiate Your DNA

Illusions of Reality Joseph Paquette 2004-07-01 " I had a dream a few years ago which became the premise of my book. This is my first attempt at writing, and was begun and completed in the first 36 days of the year 2002. When my kid brother was killed in an auto accident I slipped away for a while to process his departure as well as that of my son's accidental death. The time has come for me to honor their Dreams." Dreams can come true. So can nightmares. For anyone at anytime. For people, for countries. Harbingers can be good or bad. So can people and countries.

Endless Realities K. J. Kanda 2017-08-17 Dear Brave Readers, I am about to take you into a world that is barely talked about in our modern, linear lives -- a world of abstracts and alterations in contrast to our perceptions we have been taught to believe since we were children. The art of lucid dreaming is an intrinsic part of Shamanic practices all over the world; yet in our society it is overlooked and discounted, regardless of valuable lessons they may be trying to teach us. Many ancient cultures believe the dream time is the real world and the awake time is the illusory world because when you're asleep at night, your spirit is wide open to the Universe. When you're physically awake, your thinking is dictated by what you've been programmed to believe in from the time of your birth, by your parents, religions, schools and cultures.

Visions Dennis Hart 2000-10 Why does Mankind experience the same problems over and over again? Is he locked in a perpetual cycle doomed to repeat the same old mistakes regardless of his culture or time period? Throughout history there have been enlightened people and Masters who have told how to end this cycle. Were they

wrong or have we misinterpreted their words? This spiritual adventure follows the lives of five characters who have taken it upon themselves to break this cycle of violence and destruction.

Each of these characters: a Russian Parapsychologist, a South Korean Quantum Physicist, a West Texas Baptist Missionary in China, a California Psychologist, and an International Consultant from Dallas, holds a piece to the puzzle that will tell us how our worldview has trapped us in this endless spiral. Their personal experiences bring each of them to a higher consciousness and awareness that Mankind's inevitable fate needs a detour.

Through their commonality of belief, they meet and form a group whose objective is to answer the questions Mankind has always asked.

Questions that must be answered if Man is to change his perspective and break the repetitive cycle of history that continues to lead back to war, poverty and suffering.

Illusions Richard Bach 1977 This is a mystical adventure story about two barnstorming pilots who meet in a field in mid-west America. The book can be interpreted as an entertaining story about miracles, or as a quizzical look at the way many of us could live.

Ka Ab Ba (Kabala) Building the Lighted Temple Terri Nelson 2003-10
The book *Ka Ab Ba (Kabala) Building The Lighted Temple* draws a circle that is inclusive of the Afrikan origin of the Ancient wisdom. It reveals the undeniable root and link of Ancient Africa to all the religious systems that would develop worldwide. This book is explosive in its power to convey the

meaning of KaAbBa, the MTU NTR (words of divine speech) revealing Humanity's Spiritual Journey of Unfolding Consciousness. When understood, it is plain to see that the Ancient Africans had an enlightened and elaborate Psycho/Spiritual system for shaping the highest character and moral development, long before modern day religions and Psychoanalytic theory. The One God; the Trinity of Ausar, Auset and Heru; the transmigration of the Soul; the resurrection of the Ka-rest within (later called the Christ by the Christians) and more are all revealed in the Afrikan Spiritual system. One cannot tell the story of the Spiritual Journey of Unfolding Human Consciousness with all the necessary inclusivity required, unless they are willing to tell the truth about the Greatness of the Black Race. One minute we are Sages, the next moment we are savages. What a conundrum! Much in the literature draws a smaller circle that veils, degrades or is exclusive of the Afrikan root source and contribution. In this book, the reader will find a Holistic Spiritual Practice for Self-Transformation revealing: Knowledge of the immortality of the Soul; Guidance in managing the daily affairs through living; Life in accord with the laws of the Universe; Spirituality/Religion, Philosophy, Metaphysical, Africana Studies, Psychology, Social Thought.

Eye of the Heart Cynthia Bourgeault
2020-09-08 This groundbreaking book shares the evolution of Cynthia Bourgeault's spiritual journey and offers a new map to understanding energy and our collective reality. In Eye of the Heart, Cynthia Bourgeault investigates the imaginal realm--an energetic realm well known to the mystical traditions but often forgotten in our own times. It is invisible to the physical eye, but clearly perceptible through the eye of the heart. The imaginal realm has long been associated with the personal world of dreams, prophecy, and oracles, and it also points toward a higher vision of our human purpose that is both evolutionary and collective. Bourgeault explores both aspects of imaginal reality and shows readers how we can cooperate more fully with its guidance in our lives. Expertly blending her own lived experiences with research on the imaginal realm, Bourgeault explores how her personal relationships have helped to bring these teachings into sharper focus and the role this realm plays in Christian and other mystical traditions. She delves into the connections between our inner consciousness and what happens in the world, exploring the transformative energy and governing conventions that make the manifestation of this realm possible. Eye of the Heart presents Bourgeault's spiritual journey with the imaginal realm and encourages readers to attune their hearts for the well-being of the world.

Transcending Illusion Thea Ivie 2021-06-12 In the early 1960's Thea Ishwari Ivie traveled to India to be with realized souls because of a deep longing to know God. Thea has met, trained under, and served many great, realized masters

including Swami Ramdas, Ananda Moyi Ma, Swami Muktananda, Dhyanयोगi, Sri Karunamayi, Swami Vishwananda, and Mohanji. In Thea Ivie's autobiography, Transcending Illusion:

Theodora's Journey Through Time, she describes her incredible story of her path to enlightenment and the struggles and triumphs along the way.

Thea is extremely candid about her journey and outlines a path for all to follow. "One must want realization above all else," she says, "and to know their true state of Oneness, which is always there." Clairvoyant since childhood, Thea Ivie has helped thousands of people through her healing practice, releasing trauma, blockages and more through deep faith and prayer to the individual's own masters, guides and angels. Thea claims no doer-ship in the healing process, but only acts as a vehicle for God's divine grace, love and mercy.

The Crystal Journey Ivan McBeth 2005-05-01

The Crystal Journey is an autobiographical novel describing seven years of Ivan's life. It all started when he attempted to walk through the Himalayas into Tibet and leave the world behind - no such luck! He was hurled back into life, and given his first true warrior's task, in service to the planet. He was guided to a broken mountain where there had been a recent rockslide. There he found' seven hundred incredibly clear, magical quartz crystals in a cliff face. He became obsessed with one question: why had these beautiful crystal beings entered his life? He carried them to the Lake of the Moon, a fairytale lake at an altitude of fifteen thousand feet, which he had earlier discovered on his walk to Tibet. He camped there for a month, meditating and cleaning the crystals. There he received guidance both for his spiritual journey through life, and for what he needed to do with the crystals he had found. Until this point in his life, Ivan had floated directionless, like flotsam on the tides of existence, at the mercy of chance. When the Crystal Beings entered his awareness, they gathered the threads of his attention, communicated the reason why they had appeared, and informed him about what he should do about it. You can imagine the joy he experienced when he realised that his faith had been rewarded, and his Way had been revealed for the first time! Having left his home far behind, he had traveled through the Unknown

learning the rules as he went. He lived by his wits, learning skills along the way, following the whisperings of his heart. Now, after nearly ten years of journeying unknown pathways through strange lands, his trust had been rewarded. It felt as if he had been floating through the waters of eternity, and he had finally found land. This is an original autobiographical novel of mystery, travel and adventure. The magical and incredible part about it is that it's all true. For some strange reason those things that are usually only dreamed of, or read about in fairy stories, seem to happen to Ivan in his everyday life. He believes it is a magical agreement he made long ago with the forces of his destiny, but where and when he cannot remember. One moment he is talking with a friend, the next he is surrendered to death, the next he is battling for his life and sanity with a hoard of demons. It certainly keeps him on his toes, and his boundaries are constantly stretching into realms unimaginable! The Crystal Journey is a magic-carpet book whisking the reader away both to interesting places around the world and to the landscape of our innermost fantasies. It connects us to the spirit of adventure, which, if journeyed with, will make all of our dreams come true. We all have two lives that exist simultaneously. They are our physical lives, and our spiritual lives. Whether we like it or not, we exist in these two states all the time. In the modern world, we are taught to give all our attention to the former, for it is described as the way to success, fortune, and fulfillment. By giving the material life all of our attention, the other simply ticks over, malnourished, underdeveloped, sabotaging our hopes for a balanced, fulfilled existence. We shy away from living spiritual lives because we associate the word 'spiritual' with loneliness, insanity, discipline, unnatural sexuality, harshness, obsession and ridicule. This is a very restrictive and biased view of the sacred. It is not generally understood that the word 'Spiritual' can also be described as 'love', 'adventure', 'following your heart', 'trusting your intuition', 'embracing joy', 'walking one's talk', and 'merging with the Beloved'. How often have you heard the expression, "Do you live by your heart, or your head? This simply means, did you give your spirit, or your physical awareness, priority? It is important that we give both our physical and

spiritual sides equal attention, as both need to be healed
