

Hauntings And Poltergeists

Handbook to Ghosts, Poltergeists, and Haunted Houses

Sean McCollum
2016-08 Explores stories and legends of ghosts, poltergeists, and hauntings, including discussion of saeances and ghost hunting.

Searching for Ghosts and Poltergeists

Graham Watkins
2011-08-15 Ghosts are an intrinsic part of our culture, from lasting legends to CGI movies. Readers step inside haunted houses with parapsychologists as they try to understand the mysteries of ghosts and poltergeists. From Kentucky to London, from the past to the present day, readers will get glimpse at how these mystery explorers use scientific processes to better understand the unknown phenomena of phantom spirits.

True Ghost Stories and Hauntings

Simon B. Murik
2016-01-15 BE AFRAID... This unusual collection of true ghost

stories and hauntings has been put together by Simon B Murik who is the son of a long line of mediums and sensitives originally from Eastern Europe. Many of the stories come from his own experiences while others have been contributed by family members and those who have shared paranormal experiences and unexplained phenomenon with him. Here is a sampling of some of stories you will find in this book: The parents of a young girl who drowns in their backyard swimming pool have a painting made to keep her memory alive. The painting takes on a life of its own. A police detective meets the ghost of the last man he killed. Teenage girls playing with a Ouija Board late at night get far more answers than they were looking for. A poltergeist invades a man's apartment and leads him on a ridiculous treasure hunt. A workaholic executive staying late at night

to finish a report has an "other worldly" experience that changes his life forever. If you enjoy true ghost stories and reading about paranormal experiences you will love this book. Get ready for a few chills and goosebumps! Be sure to check out Volumes II and III of True Ghost Stories and Hauntings."

In the Realm of Ghosts and Hauntings

2002 Goes behind headlines and datelines to explore disturbing truth behind 40 famous and not-so-famous supernatural occurrence from around the world. truth behind 40 famous and not-so-famous supermatural occurrence from the around the world.

Apparitions, Hauntings and Poltergeists (2nd Edition)

Robert Young 2021-11-09 Does human consciousness survive death? Can it manifest itself to the living? And can science study alleged paranormal phenomena? In Apparitions, Hauntings and Poltergeists, Dr Robert Young provides an accessible and informative introduction to the science of

Parapsychology, drawing on years of study and first-hand experience as an investigator of paranormal phenomena. This book makes public the case files of The British Ghost Society, an organisation founded and led by Dr Young which has conducted investigations at many of Britain's allegedly haunted buildings, with dramatic and thought-provoking results. Alongside case studies of classic cases of haunting, apparitions and poltergeist phenomena, Dr Young reveals the true stories behind famous ghost movies, from The Exorcist to The Conjuring, and asks: are paranormal phenomena really evidence of disembodied souls, or are they manifestations of as yet unexplained powers of the human mind itself?

Ghosts

expert and storyteller extraordinaire Hans Holzer as he explores ghostly manifestations of every variety and delves into the true nature of “the other side.” In this groundbreaking book—featuring eye-opening photographs of ghostly apparitions and visitations—Holzer presents hundreds of case histories, tips on interpreting sounds and other signals from the beyond, and more.

Hauntings Gail Barbara Stewart 2009-08 From clanking and wailing in an abandoned house and strange lights on a Civil War battlefield to eerie voices heard on a tape recorder left on in a cemetery at night, there are thousands of haunted places. Why do some spirits of the dead remain on earth and what can be done about them?

Haunted People Hereward Carrington 1968

A Brief Guide to Ghost Hunting Leo Ruickbie 2013-08-15 There has been an upsurge in books, television programmes, films and websites exploring the reality or otherwise of the

spirit world. Not since the founding of The Ghost Club in 1862 and the Society for Psychical Research in 1882 has ghost hunting been so popular. Television and the internet, in particular, have fueled this new level of interest, creating a modern media phenomenon that spans the globe. But while the demand for information is high, good information remains scarce. A Brief Guide to Ghost Hunting leads us through the process of ghost hunting, from initially weighing the first report, to choosing equipment, and investigating and identifying the phenomena, with an analysis of the best places to go looking, methods of contacting the spirit world, how to explain paranormal activity and, crucially, how to survive the encounter.

However, it is also a book about ghost hunting itself, drawing on 130 years of research in the cavernous archives of the Society for Psychical Research and even older history to find the earliest ghost stories. A Ghost Hunting Survey makes use of interviews

with those billing themselves as ghost hunters to find out their views, motivations and experiences. New and original research makes use of statistics to map the nebulous world of apparitions while a Preliminary Survey of Hauntings offers an analysis of 923 reported phenomena from 263 locations across the UK. This is, as far as possible, an objective presentation of ghosts and ghost hunting. It is no wonder that mainstream science largely refuses to deal with the subject: it is too complicated. Without trying to convince you of any viewpoint, this book is intended to help you understand more.

Ghosts and Poltergeists in History Anita Croy 2019-07-15
One reason why supernatural ghost films are so terrifying is simple: ghosts may actually exist. Ghosts pop up everywhere in popular culture, but the ideology behind them has its roots deep in history. The belief in life beyond death and hauntings started in ancient Mesopotamia and Egypt, then grew over time, as

did ghost traditions and superstitions around the world. It's difficult to ignore the numerous accounts of ghost and poltergeist sightings, so readers beware: some of these tales may seem a bit too realistic for comfort.

Haunting Experiences Diane Goldstein 2007-09-15
Ghosts and other supernatural phenomena are widely represented throughout modern culture. They can be found in any number of entertainment, commercial, and other contexts, but popular media or commodified representations of ghosts can be quite different from the beliefs people hold about them, based on tradition or direct experience. Personal belief and cultural tradition on the one hand, and popular and commercial representation on the other, nevertheless continually feed each other. They frequently share space in how people think about the supernatural. In Haunting Experiences, three well-known folklorists seek to broaden the discussion of ghost lore by

*Downloaded from

examining it from a variety of angles in various modern contexts. Diane E. Goldstein, Sylvia Ann Grider, and Jeannie Banks Thomas take ghosts seriously, as they draw on contemporary scholarship that emphasizes both the basis of belief in experience (rather than mere fantasy) and the usefulness of ghost stories. They look closely at the narrative role of such lore in matters such as socialization and gender. And they unravel the complex mix of mass media, commodification, and popular culture that today puts old spirits into new contexts. *What is a Poltergeist?* Geoff Holder 2012-10-01 The author of *Poltergeist Over Scotland* embarks on an in-depth study of the characteristics that imbue the paranormal world's "noisy ghosts." *What Is a Poltergeist?* is an introduction to the mysterious phenomenon examining the theories and presenting the latest research evidence for poltergeist activity. In trying to define a poltergeist, author Geoff Holder ponders such questions

as: Are they the restless souls of the dead? Demons? Witches' familiars? Household spirits? Mysterious earth energies? Unknown powers of the mind? Or hoaxes? This ebook takes the well-known poltergeist phenomena—the movement of objects by invisible forces, the noises, the eruptions of fire, water and electrical disturbance—and maps them against changing ideas and beliefs. The author presents the latest theories and research evidence in his search for answers. What is a Poltergeist? is part of *The Paranormal*, a series that resurrects rare titles, classic publications, and out-of-print texts, as well as publishes new supernatural and otherworldly ebooks for the digital age. The series includes a range of paranormal subjects from angels, fairies, and UFOs to near-death experiences, vampires, ghosts, and witchcraft.

Investigating Hauntings, Ghosts, and Poltergeists Robin Santos Doak 2011 "Covers ghostly phenomena, including

height of the (now-defunct) accredited Master's degree program at John F. Kennedy University in the San Francisco Bay Area, parapsychologist Loyd Auerbach put together a true handbook for those interested in all forms of psychic phenomena and experiences, with a eye towards investigation of the paranormal (apparitions, hauntings and poltergeists). The material is presented in four sections with appendices. Section One is a "handbook" providing basic foundation knowledge of parapsychology and psychical research, psychic phenomena and experiences, and even the skeptical viewpoint. Section Two takes a look at Pop Culture -- from TV and film to science fiction and comic books -- and news and reality TV coverage of the topics. Section Three is a casebook of sorts, covering famous cases of hauntings (including an expose of the Amityville Horror case) as well as cases investigated by some of Auerbach's colleagues (and his own very first case).

Section Four is the handbook for the would-be paranormal investigator / ghost hunter. It's a step by step manual that contradicts so much of what has been altered by television producers for reality TV. Coming from the 100+ years of field investigation of the paranormal by his predecessors, colleagues, and his own experience, this common sense guide will enable people to truly investigate, understand, and generally resolve ghostly issues. Honest and direct, even if you think you know how to investigate, this section alone will enlighten you in ways you may not have imagined. Finally, the Appendices provide resources for any and all interested in the topics covered by the book. There are tools for the investigator in Appendix A. Appendix B provides an updated (2016) list of organizations and resources, a "Who Ya Gonna Call?" directory, as well as the questions you should ask to make sure the ghost hunters or parapsychologists you contact

*Downloaded from

actually are trained or educated and know what they're talking about (and know what they're doing). Additional suggestions for furthering your education in Parapsychology and the paranormal is included in this section. Appendix C provides a long list of suggested reading materials. There have been a few additional more recent titles added to this appendix (2016) as a starting point for the 21st century. Once you read this book, you'll have a real understanding of what the real scientific researchers and investigators have been doing since the 19th century start of the field, how the best investigations are conducted, what parapsychologists generally think of apparitions, hauntings, and poltergeists, and so much more!

The Mammoth Book of True Hauntings Peter Haining
2011-09-01 This giant collection includes a huge range of 20th-century first-hand accounts of hauntings, such as the American troops who repeatedly saw the ghosts

of a dead platoon of men while on patrol in Vietnam; and the witnessed haunting of a house near Tintagel in Cornwall that led actress Kate Winslet to pull out of buying the property. It covers the full spectrum of credible hauntings, from poltergeists (the noisy, dangerous and frightening spirits that are usually associated with pubescent girls, like the Bell Witch), to phantoms (like the Afrits of Saudi Arabia) and seduction spirits (such as the Lorelei, which have lured German men to death). Also included are the notes of the most famous ghost hunters of the twentieth century such as Hans Holzer, Susy Smith (USA); Harry Price, Jenny Randles (UK); Joyce Zwarycz (Australia), Eric Rosenthal (South Africa), and Hwee Tan (Japan). Plus essays by such names as Robert Graves, Edgar Cayce, and M. R. James outlining their own - often extraordinary - conclusions as to just what ghosts might be; along with a full bibliography and list of useful resources. Praise for

their existence are floating
objects, broken or missing
household items, strange
noises, and other minor
disturbances, always rendering
the investigations of such
claims inconclusive. Leaving
room for both believers and
skeptics, the author of this
volume examines a smattering
of reported poltergeist
activity—from spooky to
thrilling to playful—from
around the world to better
understand the nature of
poltergeists and the likelihood
of these seemingly paranormal
occurrences.

Poltergeists P. G. Maxwell-
Stuart 2011 The story of
violent ghost phenomena

through the ages. The
poltergeist of 'noisy ghost'
phenomenon is commonly
thought to be the result of a
dead person's angry spirit
expressing that anger by
violence in the physical world,
or the projected energies of an
emotionally volatile human
being, often a teenager. In fact,
poltergeists are more
interesting than either of those
suggested explanations,
because they are actually
something of a mystery. Are
they spirits of some kind,
natural or anomalous forms of
energy, or the products of
trickery or self-delusion, or
something else altogether?
This account sets out to seek
answers to those and other
questions by providing
examples of poltergeist activity
from late antiquity to the
present day, and discussing
who recorded them, why, and
for what kind of audience. It
also clarifies the mystery and
presents the reader with
explanations of increasingly
common, well-documented and
intriguing manifestations of
apparently paranormal

nineteenth-century spirit, and the Millbrae Poltergeist, which crashes around a suburban home. /div

Ghosts, Apparitions and Poltergeists Brian Righi 2008
The perfect manual for the ghost enthusiast, aspiring ghost hunter, or anyone who likes spine-tingling true tales, this book has something for everyone! It looks at the stories behind famous ghosts through history, ghost hunting and the original ghost-busters, mediums, spirit communication, spirits, apparitions, poltergeists, and more. This ghoulish guide is unique because it blends the history of the paranormal and paranormal investigations (including some infamous cases) with the ghost stories that accompany them. It can be read as either a handbook for ghost hunters or as a collection of true scary tales for pure enjoyment.

True Tales of the Paranormal Kimberly Molto 2002-09 True Tales of the Paranormal is an intriguing examination of reincarnation,

premonitions, and other spooky inexplicables from a scientific perspective, exploring modern scientific theories and current research. The author also provides suggestions on how to deal with paranormal experiences and where to go for help and information.

Ghosts and Poltergeists Frank Smyth 1976

Ghosts Zachary Graves 2019-08-13 Ghosts traces the cultural and literary origins of the paranormal, reveals the secrets behind many mysterious myths and legends, and analyzes our continued fascination with visitors from the other side. With chapters on the origins of ghosts, poltergeists, ghosts from around the world, exorcism, haunted houses, and more, this book will keep you on the edge of your seat. Belief in ghosts is nothing new. Uncertainty surrounding death is part of the human condition and the existence of an afterlife is deeply rooted in most worldwide cultures and religions. In Taoism and Buddhism, the Hungry Ghost

Festival celebrates the belief that, once a year, ghosts and spirits are released from the afterlife and walk among the living. In the west, ghost stories were established in ancient folklore and tend to embrace the same classic themes as today's horror movies: romance, tragedy, and terror. Writers of antiquity used ghosts and hauntings as a way to provide background information or foretell coming events, and Shakespeare, the father of English literature, used the same techniques in his plays. Glamis Castle, the infamous haunted Scottish setting for Shakespeare's *Macbeth*, is said to be one of the most nerve-wracking places on earth—but are these feelings imagined or real? At one time or another, most people have experienced a creepy, spine tingling, someone's watching you sort of sensation that they can't explain. Scientists may try to account for these fears by attributing them to the natural fear of the unknown. Cold spots are nothing more than an open window and

creaking floorboards are nothing more than old wood shifting in place. Regardless, millions of people believe that there is much more to these strange phenomena than can be explained by modern science. And really, who can say that they're wrong? Be informed, entertained, and frightened by this comprehensive volume about "the other side."

The Secret History of Poltergeists and Haunted Houses Claude Lecouteux
2012-04-26 What poltergeist accounts through the ages reveal about our own worldviews • Provides a wide array of case studies from ancient Greece and Rome to medieval Europe to the modern world • Explores the relationship between poltergeists and troubled adolescence • Looks beneath the Christian adulteration of pagan practices to reveal the hidden ancestral beliefs tied to poltergeists and haunted houses Stories of poltergeists and their mischievous and sometimes violent actions--

Downloaded from
activistcash.com on
2020-07-15 by guest

knocking, stone or chair throwing, moving objects with invisible hands, and slamming or opening doors--are a constant through the ages. What changes is how we interpret this activity. For our pagan ancestors this phenomenon was caused by helper spirits whose manifestations revealed their unhappiness with a household. The medieval Christian church demonized these once helpful spirits and held exorcisms to expel them from the houses they haunted--which proved effective less than half the time. The Age of Enlightenment cast these incidents as clever hoaxes, and many still believe this today. But poltergeist manifestations continue to appear and often defy attempts to debunk them as pranks. What then is behind this phenomenon? Exploring accounts of poltergeists from ancient Greece and Rome, medieval Europe, and the modern world, Claude Lecouteux finds that while our interpretations of poltergeists may change, the manifestations

always follow a similar course and evolution. He shows how modern scientific studies of poltergeist manifestations have found a strong tie between these visitations and the presence of a troubled adolescent in the house. Looking beneath the Christian adulteration of pagan practices to reveal the hidden ancestral beliefs tied to poltergeists and haunted houses, the author shows how these unhappy spirits serve as confirmation of the supernatural beings that share the earth with us and of our relationship with the natural and unseen world, a relationship we must take care to keep in balance.

Poltergeists Rupert Matthews
2018-09-10 Poltergeists like causing havoc. They throw things around in people's homes and play tricks with lights and household appliances. Mysterious voices, insistent knocking and weird shrieking can announce their presence, or sometimes it's peculiar smells with no apparent source (the whiff of pipe tobacco or lingering

perfumes from another age). One day you might even see a poltergeist as it turns into a full-bodied apparition before your eyes. But beware, poltergeists can pinch, slap and sexually assault the living. An attack by a poltergeist can be among the most terrifying experiences that any human is likely to encounter. This book is an exploration of the phenomenon from earliest times to the present day, highlighting the activities of these phantoms, the efforts of researchers to document and understand what is going on as well as the explanations that have been put forward.

Apparitions, Hauntings and Poltergeists Robert Young
2021-05-04 Does human consciousness survive death? Can it manifest itself to the living? And can science study alleged paranormal phenomena? In *Apparitions, Hauntings and Poltergeists*, Dr Robert Young provides an accessible and informative introduction to the science of Parapsychology, drawing on years of study and first-hand

experience as an investigator of paranormal phenomena. This book makes public the case files of The British Ghost Society, an organisation founded and led by Dr Young which has conducted investigations at many of Britain's allegedly haunted buildings, with dramatic and thought-provoking results. Alongside case studies of classic cases of haunting, apparitions and poltergeist phenomena, Dr Young reveals the true stories behind famous ghost movies, from *The Exorcist* to *The Conjuring*, and asks: are paranormal phenomena really evidence of disembodied souls, or are they manifestations of as yet unexplained powers of the human mind itself?

Ghosts and Poltergeists Gisela Meier 1991 Examines evidence supporting the existence of ghosts and poltergeists.

poltergeists, but countless numbers of people are fascinated by these unexplainable events. Written by the world's most knowledgeable authorities in this field, the essays in this work promote a better understanding of the manifestations of and various reasons for hauntings and poltergeist phenomena. The experts come from such backgrounds as anthropology, history, philosophy, psychiatry, and sociology, and provide sober yet highly readable in-depth discussions of numerous ideas and rationalizations for hauntings and poltergeists, from a critical and scientific perspective. Divided into three major sections--sociocultural, physical and physiological, and psychological perspectives--this work provides an overview of each perspective and also addresses the general psychology of belief in the paranormal and how that belief relates to experiences with ghosts and poltergeists.

Is Your House Haunted? Debi Chestnut 2011-09-08 A door

slams shut by itself. The scent of pipe tobacco drifts through an empty room. You hear your name being called, even though you know you're home alone. to call in paranormal experts. *Is Your House Haunted?* also includes a paranormal FAQ and advice on how to talk to children about ghosts.

Poltergeists Alan Gauld
2018-03-12 *Poltergeists* was first published in 1979 and rapidly established itself as a leading work on the topic. It has been frequently referred to as groundbreaking and a classic of the genre. Illustrative cases from all over the world are presented, dating from the sixteenth century to the late twentieth. Included are destructive cases, fantastical cases, poltergeist assaults, phenomena that are allegedly brought about by a witch or a demon, and others which appear to be the handiwork of a deceased human being. Most cases are sourced from contemporary notes or diaries, often little known or unknown but nevertheless fascinating, with many translated from non-English language sources. The book includes a computer analysis of the leading characteristics of hundreds of cases of poltergeists and

hauntings, and offers tentative conclusions as to the natural 'clusters' into which the cases fall. *Poltergeists* is essential reading for anyone who is interested in parapsychology and the paranormal.

Tracking Ghosts and Hauntings
Jenna Vale 2018-12-15 A wispy figure in a photograph. Objects overturned, broken, or missing. Movement in the attic. These are the sorts of things people report when they believe they have encountered a ghost. Are ghosts real, or just visions and sensations captured by an overactive imagination? This book will show readers not only some of the locations for famous hauntings, but also the science and technology that goes into proving, and disproving, encounters with spirits. Readers will discover inexplicable poltergeists and baffled families, as well as logical explanations such as infrasound and magnetic fields. They will be introduced to the field of parapsychology, and learn how ghosts and hauntings have permeated the horror genre of so many forms

of storytelling, including social media.

A Century of Ghost Stories

Richard Sugg 2017-03-31 This book presents one hundred real-life stories from the nineteenth century press. Along with accounts of ghosts, poltergeists, and haunted houses, we meet extraordinary reports of the dying appearing hundreds or thousands of miles from the sight of their death, and living people who quite literally appear in two places at once. Analysing and interpreting these stories in the light of modern paranormal events and scientific findings, Century aims to show that ghosts and poltergeists certainly do exist. It offers a range of persuasive theories about what they really are and what they mean, and screws the microscope down on the details of ghost sightings and poltergeist incidents. Why are some ghosts grey or vague, and others able to pass as living people? Can ghosts speak? How do ghosts or poltergeists use human energy, and particularly the energy of the

young or the traumatised? How do such phenomena relate to light, to electromagnetism, and even the body's circadian rhythms? This is a book about ghosts and poltergeists by someone who never expected to take them seriously. It is a book inspired by the strange experience of continually hearing such stories from people who kept them hidden until they were prompted to speak. It aims to help those who have suffered from the trauma of poltergeists, and to bring back into the open experiences which, in the developed world, have become a new kind of taboo. It is a book for anyone interested in the extraordinary effects of human emotion; the fringes of biology and physics; and the possible survival of human consciousness after death.
