The Second We Met Maya Hughes 2021-12-03 Dear Jerk Across the Street, sorry for accidentally walking in on you and catching an eyeful of your-equipment. And hard pass on the open invitation to join you in the shower "anytime", A-hole. That's the note I should've written. Instead I sent a pleasant and apologetic version. Had I known Phoenix "Nix" Russo would've been the neighbor from hell, I'd have told him right where he could shove my words. Nix is the big man on campus with everyone lined up at his games to make sure he knows it. Sure, he's got piercing blue eyes, abs that don't quit and a smile that could set fire to a set of panties from a hundred yards away, but he's also the biggest pain in my ass. Dear Pink-Haired Menace, learn how to take a joke and stop being such a kill-joy... Elle Masterson called the cops on one of my parties-again. My sweet talking usually gets me out of trouble, but this time it got me into a nice pair of silver handcuffs. Now I'm on a reputation rehab tour with a stop at a spring break community service project. Guess who's my new boss? Now we're shoulder to shoulder, sweaty, tired and...she's not anything like I expected. There might just be a heart under that hardass exterior. She's invading my dreams and I can't shake the feeling she's the key to unlocking a piece of me that I've hidden away. It's only a matter of time until she finds out why I'm really here. Maybe I can break through her walls and into her heart before that happens...one screw at a time.

The Charisma Myth Olivia Fox Cabane 2013-03-26 What if charisma could be taught? The charisma myth is the idea that charisma is a fundamental, inborn quality—you either have it (Bill Clinton, Steve Jobs, Oprah) or you don't. But that's simply not true, as Olivia Fox Cabane reveals. Charismatic behaviors can be learned and perfected by anyone. Drawing on techniques she originally developed for Harvard and MIT, Cabane breaks charisma down into its components. Becoming more charismatic doesn't mean transforming your fundamental personality. It's about adopting a series of specific practices that fit in with the personality you already have. The Charisma Myth shows you how to

become more influential, more persuasive, and more inspiring. Monsters We Met Ted Oakes 2003 Homo sapiens began to explore the world beyond Africa only 100,000 years ago. These people were not primitive cavemen, but as intelligent as ourselves. Thousands of years before Cook or Columbus, they pioneered a route from Africa through Eurasia to Australia, northern Europe, the Americas, and ultimately the shores of remote islands such as New Zealand. What our ancestors found was not the planet that we know today, but instead a prehistoric world ruled by giant animals, 'monsters' that had risen from the ashes of the dinosaurs. *Monsters We Met* tells the greatest untold story of our species: how humans discovered all the continents and met Earth's extraordinary megafauna - enormous lizards, horse-sized bears, terrible cats, colossal birds and lumbering plant-eaters. In the first review of its kind, and drawing on the latest research from science, archaeology and anthropology, this book sets out to answer some vital questions. Did we battle with megafauna for control of Earth, or did they disappear for other reasons? Why does one animal, Homo sapiens dominate our world today, and at what cost? And what is the message from prehistory for us now?

When Cara quite literally bumps into Henry a second time at a work event, the run-in leaves them with feelings instead of bruises, and they can't wait another day before seeing each other again. Yet it soon becomes clear how deeply different their worlds are: Cara's drama-filled African and Caribbean family couldn't be further from Henry's family of wealthy lords and ladies. Both patient and therapist embark on their own quests--Telesyk, to free himself from the prison of his mind and Natalka, to escape the dark secrets of her past. As different as East and West, they realize that they must unite to slay the family of dragons that are threatening their existence. Myth and Madness blends magical realism with historical events on the Maidan to tell the story of a nation's quest for its identity.

Before We Were Strangers Renée Carlino 2015-08-18 From the USA TODAY bestselling author of Sweet Thing and Nowhere But Here comes a love story about a Craigslist "missed connection" post that gives two people a second chance at love fifteen years after they were separated in New York City. To the Green-eyed Lovebird: We met fifteen years ago, almost to the day, when I moved my stuff into the NYU dorm room next to yours at Senior House. You called us fast friends. I like to think it was more. We lived on nothing but the excitement of finding ourselves

through music (you were obsessed with Jeff Buckley), photography (I couldn't stop taking pictures of you), hanging out in Washington Square Park, and all the weird things we did to make money. I learned more about myself that year than any other. Yet, somehow, it all fell apart. We lost touch the summer after graduation when I went to South America to work for National Geographic. When I came back, you were gone. A part of me still wonders if I pushed you too hard after the wedding... I didn't see you again until a month ago. It was a Wednesday. You were rocking back on your heels, balancing on that thick yellow line that runs along the subway platform, waiting for the F train. I didn't know it was you until it was too late, and then you were gone. Again. You said my name; I saw it on your lips. I tried to will the train to stop, just so I could say hello. After seeing you, all of the youthful feelings and memories came flooding back to me, and now I've spent the better part of a month wondering what your life is like. I might be totally out of my mind, but would you like to get a drink with me and catch up on the last decade and a half? M

Board Stiff Piers Anthony 2014-07-01 Kandy may be bored stiff, but a magical mishap makes her problem literal in this hilarious novel in the New York Times--bestselling Xanth series. In the land of Xanth, where everyone has a unique magical talent, adventures come easily to most. But two inhabitants find themselves quite bored . . . until they're inadvertently thrust together on a mission to save Xanth from an anti-pun virus that could turn their world into just another Mundania. Irrelevant Kandy is gorgeous, but thanks to a mental typo and an ornery wishing well, she's now an actual board—with mind control powers. So much for her big plans for adventure, excitement, and romance. And Ease has his own problems, namely that everything is just too easy. He craves a challenge. Fortunately, Humfrey the Good Magician is more than happy to provide them with a quest. The duo—along with a basilisk bodyguard in the form of a young woman and nefarious android Com Pewter—is tasked with saving the puns of Xanth. But who could have released a virus that would destroy Xanth's essence, and can Kandy and Ease figure out how to stop it in time?

How to Not Die Alone Logan Ury 2021-02-02 A "must-read" (The Washington Post) funny and practical guide to help you find, build, and keep the relationship of your dreams. Have you ever looked around and wondered, "Why has everyone found love except me?" You're not the only one. Great relationships don't just appear in our lives—they're the culmination of a series of decisions, including whom to date, how to end it with the wrong person, and when to commit to the right one. But our brains often get in the way. We make poor decisions, which thwart us on our quest to find lasting love. Drawing from years of research, behavioral scientist turned dating coach Logan Ury reveals the hidden forces that cause those mistakes. But awareness on its own doesn't lead to results. You have to actually change your behavior. Ury shows you how. This "simple-to-use guide" (Lori Gottlieb, New York Times bestselling author of Maybe You Should Talk to Someone) focuses on a different decision in each chapter, incorporating insights from behavioral science, original research, and real-life stories. You'll learn: -What's holding you back in dating (and how to break the pattern) -What really matters in a long-term partner (and what really doesn't) -How to overcome the perils of online dating (and make the apps work for you) -How to meet more people in real life (while doing activities you love) -How to make dates fun again (so they stop feeling like job interviews) -Why "the spark" is a myth (but you'll find love anyway) This "data-driven" (Time), step-by-step guide to relationships, complete with hands-on exercises, is designed to transform your life. How to Not Die Alone will help you find, build, and keep the relationship of your dreams.
