The Color of Air Gail Tsukiyama 2020-07-07 PARADE's Best Books to Read this Summer "A rich historical novel that illustrates why connection is more important and more vital than ever." -New York Times bestselling author Lisa See Daniel Abe, a young doctor in Chicago, is finally coming back to Hawai'i. He has his own reason for returning to his childhood home, but it is not to revisit the past, unlike his Uncle Koji. Koji lives with the memories of Daniel's mother, Mariko, the love of his life, and the scars of a life hard-lived. He can't wait to see Daniel, who he's always thought of as a son, but he knows the time has come to tell him the truth about his mother, and his father. But Daniel's arrival coincides with the awakening of the Mauna Loa volcano, and its dangerous path toward their village stirs both new and long ago passions in their community. Alternating between past and present—from the day of the volcano eruption in 1935 to decades prior—*The Color of Air* interweaves the stories of Daniel, Koji, and Mariko to create a rich, vibrant, bittersweet chorus that celebrates their lifelong bond to one other and to their immigrant community. As Mauna Loa threatens their lives and livelihoods, it also unearths long held secrets simmering below the surface that meld past and present, revealing a path forward for them all.

A Little Journey to Hawaii Marian M. George 2018-03-09 Excerpt from *A Little Journey to Hawaii: For Intermediate and Upper Grades* The other important islands are Oahu, Kauai, Mo lokai, Lanai, Kahoolawe, and Niihau. You wonder how these islands came to be here in the middle of the ocean, so far away from any continent. I will tell you. They were volcano-belched and coral built. Countless ages ago their peaks first appeared, forced upward from the bottom of the sea by the action of heat in the earth. From openings in these peaks water, gases, steam, hot ashes, and melted rock or lava were thrown up into the air. The ashes

floated in the air, gradually falling over the land. The lava flowed down the sides of the peaks. More lava and other material were added as the years passed by. In this way, and through disintegration, the peaks became mountains and plains. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Race to Hawaii Jason Ryan 2018-08-01 A thrilling account, *Race to Hawaii* chronicles the first flights to Hawaii in the 1920s, during the Golden Age of Aviation. These journeys were fraught with danger. To

reach the tiny islands, fearless pilots flew unreliable and fragile aircraft outfitted with primitive air navigation equipment. The Dole Derby was an unprecedented 1927 air race in which eight planes set off at once across the Pacific, all eager to reach the islands first and claim a cash prize offered by "Pineapple King" James Dole. Military men, barnstormers, a schoolteacher, a Wall Street bond salesman, a Hollywood stunt flyer and veteran World War aces all encountered every type of hazard during their perilous flights. With so many pilots taking aim at the far-flung islands in so many different types of planes, everyone wondered who would reach Hawaii first, or at all.

Red Sky Over Hawaii Sara Ackerman 2020-06-09 Inspired by real places and events of WWII, *Red Sky Over Hawaii* immerses the reader in a time of American history full of suspicion and peril in this lush and poignant tale about the indisputable power of doing the right thing against all odds. The attack on Pearl Harbor changes everything for Lana Hitchcock. Arriving home on the Big Island too late to reconcile with her estranged father, she is left alone to untangle the clues of his legacy, which lead to a secret property tucked away in the remote rain forest of Kilauea volcano. When the government starts taking away her neighbors as suspected sympathizers, Lana shelters two young German girls, a Japanese fisherman and his son. As tensions escalate, they are forced into hiding—only to discover the hideaway house is not what they expected. When a detainment camp is established nearby, Lana struggles to keep the secrets of those in her care. Trust could have dangerous consequences. As their lives weave together, Lana begins to understand

the true meaning of family and how the bonds of love carry us through the worst times.

Race to Hawaii Jason Ryan 2019-11-05 A century ago, a flight to Hawaii was a twenty-six-hour journey across 2,400 miles of the open Pacific. The US Navy tried first; then Army Air Corps aviators and a civilian pilot informally raced each other to Hawaii in the weeks after Charles Lindbergh crossed the Atlantic. Finally came the Dole Derby, an unprecedented 1927 air race in which eight planes set off at once across the Pacific, all eager to claim a cash prize offered by Pineapple King, James Dole. The pilots encountered every type of hazard during their perilous flights, from fuel shortages to failed engines, forced sea landings and severe fatigue to navigational errors. Ryan chronicles these early attempts to open Hawaii to flights from the West Coast. -- adapted from Amazon.com info.

Shuffleboard Pilots Candace A. Chenoweth 1991-11-01 Events surrounding the December 7th attack have been detailed in more than one hundred books & countless articles. Few of these resources, however, have touched upon the part played by Hawaii's civilian population & none has detailed the work of the Women's Air Raid Defense, an organization organized in the difficult early days of the war on what was literally the front line of battle. Young local women & military wives volunteered to replace soldiers who were needed for duty on other Pacific Islands. Simply to have made the decision to remain in

Hawaii in late December 1941 was an act of courage.

Baron Kathy Lynne Linker 2016-01-15 Laurence H. Dorcy Jr., also known as "Baron", was the great grandson of railroad magnate, James Jerome Hill. Born into a world of privilege in 1935, Baron became heir to a substantial fortune. This color photo biography illustrates some of this gifted man's exciting endeavors, such as the construction of the Hawaiian Chieftain, a tall ship that continues to educate youth on the Pacific coast of America. This book describes Baron's rich family ancestry, his childhood during WWII, his Air Force duty in Strategic Air Command in the 1950s, his beach days in French Polynesia in the 60s, explorations between California, Hawaii and the French Polynesian islands, the Hawaiian Chieftain's maiden voyage to Tahiti, and the breathtaking creation of his final estate in Maui. After his passing in 2011, the formation of the Laurence H. Dorcy Hawaiian Foundation, which generously supports charities in Hawaii, ensures that his legacy lives on.

Prevailing Trade Winds Marie Sanderson 1994-02-01 The Hawaiian Islands are small in area, but they resemble continents in miniature with climates ranging from tropical rainforest to desert to tundra. *Prevailing Trade Winds: Weather and Climate in Hawaii*, intended for students of geography, biology, ecology, and hydrology, for visitors interested in the natural phenomena of the places they visit, and for island residents, explains in clear language the many aspects of the climate and weather of Hawaii. Weather is usually defined as the current state of the atmosphere, while climate denotes average weather and includes the variability and frequency of the factors that produce weather. The authors of this volume discuss the factors that control climate; the radiation, energy, and water balances; the impact of climate on human

activity; the climate-related meanings of many place names in Hawaii; and the importance of the climate of Hawaii for scientific research.

Kennedy's Hawaiian Air Ray Thiele 1994 KENNEDY'S HAWAIIAN AIR: history of the islands' first airline. Conceived in 1929 by Stanley C. Kennedy, Sr., the book reveals the challenges, opposition to & early development of inter-island service. It started with two Sikorsky S-38 amphibians; in 1935 the Sikorsky S-43, a larger & faster amphibian was added. In mid-1941; Kennedy bought three new Douglas DC-3 aircraft. The company name became Hawaiian Airlines. The Japanese Pearl Harbor attack damaged the company's aircraft. Surface shipping ceased between the islands. HAL began the nation's first air cargo service. Postwar competition for passengers began, causing HAL political & financial stress. Since 1934 Kennedy had sought to fly overseas, persisting in an effort that never ceased. At age 65 Kennedy chose Arthur Lewis, a mainland airline executive, to manage HAL. He remained Kennedy Board chairman until Honolulu entrepreneur J.H. Magoon bought majority control in December 1963. HAL bought a jet aircraft (DC-9) in 1966, & acquired more & larger models until 1982, selling the DC-3 & jetprop Convair 640 aircraft. In 1982, HAL began Pacific service using DC-8 aircraft. The Lockheed L1011 aircraft was used in daily service to west coast cities starting in 1985, and then added to South Pacific routes. Poor management resulted in serious losses & HAL filing for bankruptcy under Chapter 11. By 1994, free of Chapter 11 without a

shutdown of service, Magoon sold out. New management striving to keep the airline viable. Order the book from Olomana Pub. (\$11ppd), 1605 Uluamahi, Kailua, HI 96734. Disc. in bulk. NO CREDIT CARDS.
