Inside the Fisher Body Craftsman's Guild

John L. Jacobus 2011-12-01 From 1930 to 1968, General Motors sponsored a 1:12 scale model automobile design competition for youth—the famous Fisher Body Craftsman's Guild. Each year thousands of boys and young men from across America competed for scholarships by designing, building, and submitting a scale model of their own "dream car," to be judged on such qualities as design originality and craftsmanship. A public relations bonanza for GM, the program helped to identify and nurture a generation of future leaders in design engineering, automotive design, automotive styling, industrial design and other endeavors. In these essays, more than 30 Guildsmen chronicle their experiences in the competition, revealing their model car design techniques, tricks, and
