But Jack starts hinting about something more, and suddenly she's being seduced in the most tempting way... Originally published in 2004

Experiencing Architecture, second edition Steen Eiler Rasmussen 1964-03-15 A classic examination of superb design through the centuries. Widely regarded as a classic in the field, *Experiencing Architecture* explores the history and promise of good design. Generously illustrated with historical examples of designing excellence—ranging from teacups, riding boots, and golf balls to the villas of Palladio and the fish-feeding pavilion of Beijing's Winter Palace—Rasmussen's accessible guide invites us to appreciate architecture not only as a

profession, but as an art that shapes everyday experience. In the past, Rasmussen argues, architecture was not just an individual pursuit, but a community undertaking. Dwellings were built with a natural feeling for place, materials and use, resulting in “a remarkably suitable comeliness.” While we cannot return to a former age, Rasmussen notes, we can still design spaces that are beautiful and useful by seeking to understand architecture as an art form that must be experienced. An understanding of good design comes not only from one's professional experience of architecture as an abstract, individual pursuit, but also from one's shared, everyday experience of architecture in real time—its particular use of light, color, shape, scale, texture, rhythm and sound. *Experiencing Architecture* reminds us of what good architectural design has accomplished over time, what it can accomplish still, and why it is worth pursuing. Wide-ranging and approachable, it is for anyone who has ever wondered “what

instrument the architect plays on.”

The Creative Mind Margaret A. Boden
2004-02-24 How is it possible to think new thoughts? What is creativity and can science explain it? And just how did Coleridge dream up the creatures of *The Ancient Mariner*? When *The Creative Mind: Myths and Mechanisms* was first published, Margaret A. Boden's bold and provocative exploration of creativity broke new ground. Boden uses examples such as jazz improvisation, chess, story writing, physics, and the music of Mozart, together with computing models from the field of artificial intelligence to uncover the nature of human creativity in the arts. The second edition of *The Creative Mind* has been updated to include recent developments in artificial intelligence, with a new preface, introduction and conclusion by the author. It is an essential work for anyone interested in the creativity of the human mind.

No Sense of Obligation Matt Young 2001-10-31
Some of the Praise for No Sense of Obligation . . .
. fascinating analysis of religious belief -- Steve Allen, author, composer, entertainer [A] tour de force of science and religion, reason and faith, denoting in clear and unmistakable language and rhetoric what science really reveals about the cosmos, the world, and ourselves. Michael Shermer, Publisher, *Skeptic Magazine*; Author, *How We Believe: The Search for God in an Age of Science* About the Book Rejecting belief without evidence, a scientist searches the scientific, theological, and philosophical literature for a sign from God--and finds him to be an allegory. This remarkable book, written in the laypersons language, leaves no room for unproven ideas and instead seeks hard evidence for the existence of God. The author, a sympathetic critic and observer of religion, finds instead a physical universe that exists reasonlessly. He attributes good and evil to biology, not to God. In place of theism, the

author gives us the knowledge that the universe is intelligible and that we are grownups, responsible for ourselves. He finds salvation in the here and now, and no ultimate purpose in life, except as we define it.

The Complete Poetry of James Hearst James Hearst 2001 Part of the regionalist movement that included Grant Wood, Paul Engle, Hamlin Garland, and Jay G. Sigmund, James Hearst helped create what Iowa novelist Ruth Suckow called a poetry of place. A lifelong Iowa farmer, Hearst began writing poetry at age nineteen and eventually wrote thirteen books of poems, a novel, short stories, cantatas, and essays, which gained him a devoted following. Many of his poems were published in the regionalist periodicals of the time, including the Midland, and by the great regional presses, including Carroll Coleman's Prairie Press. Drawing on his experiences as a farmer, Hearst wrote with a distinct voice of rural life and its joys and

conflicts, of his own battles with physical and emotional pain (he was partially paralyzed in a farm accident), and of his own place in the world. His clear eye offered a vision of the midwestern agrarian life that was sympathetic but not sentimental - a people and an art rooted in place.

Women, Race, & Class Angela Y. Davis

2011-06-29 From one of our most important scholars and civil rights activist icon, a powerful study of the women's liberation movement and the tangled knot of oppression facing Black women. "Angela Davis is herself a woman of undeniable courage. She should be heard."—The New York Times Angela Davis provides a powerful history of the social and political influence of whiteness and elitism in feminism, from abolitionist days to the present, and demonstrates how the racist and classist biases of its leaders inevitably hampered any collective

ambitions. While Black women were aided by some activists like Sarah and Angelina Grimke and the suffrage cause found unwavering support in Frederick Douglass, many women played on the fears of white supremacists for political gain rather than take an intersectional approach to liberation. Here, Davis not only contextualizes the legacy and pitfalls of civil and women's rights activists, but also discusses Communist women, the murder of Emmitt Till, and Margaret Sanger's racism. Davis shows readers how the inequalities between Black and white women influence the contemporary issues of rape, reproductive freedom, housework and child care in this bold and indispensable work. Tiger-lilies Sidney Lanier 1867 "Tiger-Lilies is actually a somewhat autobiographical book. In it, Lanier analyzes the relationship between a Northerner and a Southerner throughout the Civil War. As a Southerner who had fought for the Confederate army, Lanier had experienced the war firsthand, both on the battlefield and as

a prisoner of war. These experiences are recognizable in the battle scenes especially, which are considered some of the most realistic representations of Civil War combat in literature. Ultimately, Tiger-Lilies can be interpreted as an anti-war novel and one of Lanier's less successful endeavors in the course of his career."--The History Engine **Dirty Work** Regina Kyle 2020-05-01 Millionaire nightclub owner Jake Lawson works hard, but executive concierge Ainsley Scott is showing him how to let loose...in the sexiest possible way! I knew I was in trouble the moment millionaire Jake Lawson walked through the door of his swanky Tribeca loft. The definition of tall, dark and handsome, he's hired me to take care of his parents' Irish wolfhound. But one game of strip Scrabble later and we're taking care of each other all night long... Starting my concierge business was my way out of the rat race I ran as a lawyer until it cost me my fiancé. And Jake is a full-on workaholic, certain his high-end

nightclub will fall apart if he loses focus for a second. We couldn't be more different. But the chemistry between us is off the charts! From drag-queen karaoke to movies at Hudson River Park, I'm showing Jake how to lighten up and enjoy everything New York City has to offer. But I can't help wondering if blowing each other's minds in bed is enough to make up for our different values. Can Jake step away from his smartphone long enough to give us a chance?
