Six Men Built the Modern Auto Industry Richard Alan Johnson
This is the story of six extraordinary men who each built something from nothing, redefined the automotive industry after World War II, and redirected its course for the future: Henry Ford II (visionary autocrat with an iron will), Shoichiro Honda (most successful automotive entrepreneur since Henry Ford I), Eberhard von Kuenheim (founder of the modern BMW), Lee Iacocca, Ferdinand Piech (builder of Volkswagen Group) and Robert Lutz (who left retirement at 70 and is still highly influential at General

Motors). What made them special was the sheer volume of fundamental change they brought to the largest industry in the history of the world. They not only re-shaped the auto business, the six made a sizable dent in the societies they lived in. To a man they were great cognitive thinkers. Their minds worked with animal speed, even instinct speed. But more than anything these were brave and cantankerous souls who rode the waves of history. Each could see the future. They could just make it out-sometimes imperfectly, but could see it nonetheless. They took a business that had begun to mature and decline by the 1930s and found ways to make it fresh and whole again.- The compelling story of the global car business over the past half-century.- A lively and engaging narrative that recounts some times collaborative, sometimes archly antagonistic interactions among the men- Full of business revelations at the highest level, written by a journalist operating at the

heart of the industry- Global appeal that shows how automotive groups in the USA, Europe and Asia have influenced each other- A business story interlaced with personal details that explains why the six were determined to be successful>About the AuthorFor two decades, Richard Johnson has worked for Crain Communications, publisher of the world's leading automotive business publications. Founding editor of Crain's Automotive News Europe, he has been a reporter and editor for the group in Detroit, Tokyo, Frankfurt and London. He is currently a senior editor with Automotive News in Detroit and regularly talks to the most senior executives in the leading car manufacturing groups.

Hutchy - Miracle Man Ian Hutchinson 2016-10-17 Ian Hutchinson - 'Hutchy' to his many thousands of fans - is a motorcycle racer like few others. A road racer to the core, he has enjoyed spectacular success, notably at the Isle of Man TT, but his own

story goes far beyond even those triumphs. In the summer of 2010, Hutchy set the record for most wins in a single TT festival - five in all - having already won the Supersport class at the North West 200 in Northern Ireland. Then disaster struck. At a British Supersport round at Silverstone in September that year, he crashed heavily and was struck by another rider's machine, breaking his left leg so badly that at one stage it was feared it might have to be amputated. After many surgical operations and a long period of recovery, he fractured the same leg in 2012 while practising exhibition-riding for a motorcycle show. Yet not even these disasters could keep the Yorkshireman from racing. After modifications to the rear-brake and gear levers on his race machines, he went out and won the 2013 Macau Grand Prix. Two years later saw an even more staggering return to form, when he secured three wins, a second and a third place at the 2015 Isle of Man TT, also winning

the Joey Dunlop TT Championship Trophy for that year. And 2016 was to prove even better. Honest, brave and quirkily amusing, Hutchy: Miracle Man presents Hutchy's own accounts and opinions with those of various celebrated figures from the world of motorcycle racing. It is a book not only for fans of road racing, but for anyone interested in the life and career of a brilliant rider and an extraordinarily brave and enduring man, justly popular not just for his achievements, but for his unassuming modesty, kindness and humour.

Motorcycles, Mates and Memories

Bill Snelling
2021-09-14 Bill Snelling reflects on his lifetime passion for two-wheeling in this entertaining, motorcycle-themed autobiography. He recalls the decades of motorcycling mayhem, mud and madness that have characterised his 70-odd years living the dream, from the early days at Arthur Lavington's Velo shop to pounding the long-distance trials and the many race circuits he has ridden. Bill admits he was better off-road than on tarmac, but he did win one race! He went on to work for Motorcycle Sport magazine, and as a dispatch rider, before moving permanently to the Isle of Man. A great read for anyone interested in British motorcycle sports.

The History of Japanese Economic Development Kenichi Ohno 2017-09-07 This is an easy-to-read book that explains how and why Japan industrialized rapidly. It traces

historical development from the feudal Edo period to high income and technology in the current period. Catch-up industrialization is analyzed from a broad perspective including social, economic and political aspects. Historical data, research and contesting arguments are amply supplied. Japan's unique experience is contrasted with the practices of today's developing countries. Negative aspects such as social ills, policy failures, military movements and war years are also covered. Nineteenth-century Japan already had a happy combination of strong entrepreneurship and relatively wise government, which was the result of Japan's long evolutionary history. Measured contacts with high civilizations of China, India and the West allowed cumulative growth without being destroyed by them. Imported ideas and technology were absorbed with adjustments to fit the local context. The book grew out of a graduate course for government officials from

themselves against the gruelling 37-and-threequarter-mile Isle of Man Mountain Course at the annual event known worldwide simply as 'the TT'. The Tourist Trophy meeting - to give its proper name - represents perhaps the greatest challenge that the sport of motorcycle racing can offer. The top names in road racing - Collier, Wood, Duke, Hailwood, Agostini, Hislop, Jefferies, McGuinness, Hutchinson and the Dunlop dynasty - have all considered the pursuit of a Tourist Trophy to be the ultimate goal. From riding the earliest single-cylinder, belt-driven machines with outputs of under 10bhp, to coping with today's sophisticated four-cylinder machines giving well over 200bhp, generations of riders have risked their lives to satisfy the desire to go faster than the next man and to win a TT. In the process they have lifted lap speeds by almost 100mph. Exactly how that huge increase has been achieved is told within these pages, set against the background of the triumphs

and the tragedies of the TT history. A comprehensive story of speed at the TT Races, superbly illustrated with over 200 colour photographs and maps.

Japanese Production Racing Motorcycles

Mick Walker
2004-09-02 As this book explains, the Japanese did not suddenly become proficient in the design and development of motorcycles when they first appeared in Europe at the end of the 1950s. Instead, the Japanese had been involved with motorcycles since the beginning of the 20th century. True, early Japanese motorcycles copied Western design - a trend that continued for several years after WWII. But soon they designed a succession of highly innovative machinery, not only to the Grand Prix world's benefit but to the paying 'over-the-counter' customer, too. Honda, Kawasaki, Suzuki, and Yamaha, plus Bridgestone and Tohatsu, have all built and sold racing motorcycles which the public could also buy and enjoy.

McGuinness 2017-05-04 Go on the ride of your life with the racing legend himself **with a thrilling NEW CHAPTER on John's dramatic 2017 crash** 'Then I was there myself, just another face in the crowd, watching the bikes fly by. The smells, the noise and the speed were all there for me to experience. It was like a massive injection in my head and it just blew my mind. I knew within seconds that I was going to be a TT racer. I didn't know how or what I was going to have to do to achieve this, and my dad wasn't going to be

keen. Everyone around me was aware of the dangers, but from that moment I knew I had to do it.' John McGuinness is one of the all-time giants of road racing, with a huge host of victories to his name. But his easy humour and down-to-earth attitude off the bike have always kept people guessing: what's the truth about the man inside the helmet, that has kept him at the top of such a sport for over 20 years? His autobiography tells the whole story, from his humble beginnings in Morecambe and getting his first bike at the age of 3, to working as a bricklayer and cockle fisherman before deciding to follow his dream, and finally to his many victories in the most dangerous sporting event on the planet. He tells of what it takes to be a champion in such an exacting sport, and to keep winning even though all logic tells you to stop - and when so many of your fellow racers are paying the ultimate price for doing it. This thrilling autobiography gets into the head of the man who stares death in the face,

2018-05-30 A motorcycle enthusiast offers in-depth, fully illustrated profiles of the 25 greatest machines to race the Isle of Man TT. Since it began in 1907, the Isle of Mann Tourist Trophy has gained a well-deserved reputation as the most challenging—and dangerous—motorcycle race in the world. In *TT Titans*, Matthew Richardson explores a fascinating question: which motorcycles or sidecar outfits have made the strongest contributions to the race over the last century? As Richardson

makes his choices, he describes each one in vivid detail. Richardson recounts extraordinary achievements like lap records, race victories, technical innovations and other milestones. Modern bikes from BMW, Honda, Suzuki and Yamaha are featured alongside classic models from Matchless, Norton and Velocette.

Richardson also includes profiles of the men who built and rode these exceptional machines—a list that includes many of the best-known names from every era of the sport, from Stanley Woods, Bob McIntyre and Mike Hailwood to Carl Fogarty, Joey Dunlop, Dave Molyneux and John McGuinness.

Motorcycle Road & Racing

Chassis Keith Noakes

2015-10-14 This book is an account of the companies and individuals, who have played a major part in the design and advancement of motorcycle frame (chassis) performance. These independent companies began to spring up in the early postwar years, when motorcycle racing began to take place again. Due to the lack of available factory machines and the urge to improve performance of the now aged equipment, riders began to build their own frames around whatever engines were available. Success brought recognition, and people were soon wanting to buy winning machines, so fledgling companies began to

spring up to satisfy the growing demand for custom chassis. Some of these companies soon began to grow, and others appeared in various European countries over the next few years. The state-of-the-art hand built frames were becoming a must for the discerning road bike rider, and so the independent motorcycle frame makers were beginning to put some designs into production, and a thriving business was beginning to emerge. In later years, with such a large choice of factory engines from around the world, the successful independent chassis manufacturers went from strength to strength and some are now producing highly prized road bikes, whilst building one-off machines as required. As the years have passed, one or two of the independent companies have disappeared, but in many cases their machines have become very collectable classics. The companies still thriving today, as well as producing modern machines with a wide range of engine options, are finding

considerable business rebuilding and maintaining machines built in the earlier years. Some of the pioneer builders have become household names to the motorcycle fraternity, and those written about in this book include: Nico Bakker (The Netherlands), Bimota (Italy), Dresda Autos (United Kingdom), Egli (Switzerland), Harris Performance Products (United Kingdom), Hejira racing (United Kingdom), Magni (Italy), Maxton Engineering (United Kingdom), P&M Motorcycles (United Kingdom), Quasar (United Kingdom), Rickman UK (United Kingdom), Colin Seeley Racing (United Kingdom), Segale (Italy) and Spondon Engineering (United Kingdom). This book charts the history of these innovative companies with full specifications for many chassis, and is extensively illustrated throughout. A must for any motorcycle enthusiast, and a valuable reference for the trade.

volumes] John Nauright
2012-04-06 This multivolume set is much more than a collection of essays on sports and sporting cultures from around the world: it also details how and why sports are played wherever they exist, and examines key charismatic athletes from around the world who have transcended their sports. Sports Around the World: History, Culture, and Practice provides a unique, global overview of sports and sports cultures. Unlike most works of this type, this book provides both essays that examine general topics, such as globalization and sport, international relations and sport, and tourism and sport, as well as essays on sports history, culture, and practice in world regions—for example, Latin America and the Caribbean, the Middle East and North Africa, Europe, and Oceania—in order to provide a more global perspective. These essays are followed by entries on specific sports, world athletes, stadiums and arenas, famous games and matches,

and major controversies. Spanning topics as varied as modern professional cycling to the fictional movie Rocky to the deadly ball game of the ancient Mayans, the first three volumes contain overview essays and entries for specific sports that have been and are currently practiced around the world. The fourth volume provides a compendium of information on the winners of major sporting competitions from around the world. Readers will gain invaluable insights into how sports have been enjoyed throughout all of human culture, and more fully comprehend their cultural contexts. The entries provide suggestions for further reading on each topic—helpful to general readers, students with school projects, university students and academics alike. Additionally, the four-volume Sports Around the World spotlights key charismatic athletes who have changed a sport or become more than just an outstanding player.

Classic TT Racers Greg Pullen
2019-08-26 At 10 o'clock on the twenty-eighth of May 1907 the first Isle of Man Tourist Trophy motorcycle road race began. The riders pushed off on their 500cc single cylinder bikes and ten laps and 158 miles later, Charlie Collier aboard a Matchless would be declared the victor. This book is a history and celebration of the bikes of those early years of the TT races. It covers the events and personalities that led to the creation of the race and its challenging course; the early success of the British motorcycle manufacturers: Norton, Velocette, AJS and Matchless and their riders. The origins of the Italian Fours: Gilera and MV Agusta Quattro are covered and the influence and reign of the Japanese manufacturers too are covered: Honda, Yamaha, Kawasaki and Suzuki. There are also details of the technical developments that enabled the bikes to conquer the mountain course with world-record beating times.

Motorsport's Military Heroes

Bryan Lightbody 2022-09-08

Motorsport has many iconic names attached to it. It has many that are celebrated as heroes in their chosen sport. However, what perhaps is less well known is how many of the motorsport icons of the twentieth century carried out acts of real-life bravery, many during war time, but some in selfless acts of bravery in saving the lives of their fellow competitors. Some of the iconic names of motorsport are linked to the great conflicts of the twentieth century. Enzo Ferrari served during World War One, the most revered of the 1920s Bentley Boys were all World War One veterans such as John Duff, Bernard Ruben, Woolf Barnato, Sammy Davis and Glen Kidston. World War One American flying ace Eddie Rickenbacker was an Indianapolis 500 racing driver. Muriel Thompson, Military Medal, who became a World War One ambulance driver,

was not only a chauffeur for suffragette Emeline Pankhurst, but raced at Brooklands before the war. Commentator Murray Walker was a World War Two tank commander, fellow commentator Raymond Baxter was a Spitfire pilot who was mentioned in dispatches for bravery. Carroll Shelby was a United States Army Airforce pilot and instructor with a reputation for great leadership. His friend, engineer and racing driver Ken Miles, served throughout the war as a specialist in tank recovery, landing as part of the D-Day operations. These are just a few of the most notable names from a group of men and women who risked all in conflict, before risking all on the track profiled in this book.

Never Say Never Nick Harris
2019-05-23 'The unmistakable voice of Moto GP' - Valentino Rossi As 'The Voice' of motorcycle racing for forty years, commentator Nick Harris became the biggest star not on two wheels in the paddock, and this is his mostly

eye-witness, white-knuckle account of MotoGP's scorching seventy-year history. The story starts on the Isle of Man in 1949, when Geoff Duke, with his slicked-back hair and one-piece black leathers, became the nation's hero, defying the odds and winning the most dangerous race in the world on a British-built Norton. Just over a decade later at Mallory Park, another British champion and one of the greatest riders of all time Mike Hailwood screamed past a young Nick Harris on his 250cc Honda, and a life-long passion was born. Harris has been at the centre of the sport for decades, getting to know the riders as individuals, seeing feuds unfold, champions made, careers and sometimes lives ended. We'll see the biggest podium stars up close, from Barry Sheene and Kenny Roberts to Valentino Rossi, and we'll meet the mechanics behind them, the manufacturers who poured millions into the teams, and the organisers who, in the early days, ruthlessly compromised rider safety for profits. 100 Years of the Isle of Man TT

David Wright 2013-11-30 Run over the everyday roads of the Isle of Man for over 100 years, the world-famous Tourist Trophy races have gripped the imaginations of successive generations of motorcyclists. From the earliest days of single-speed, belt-driven machines delivering 5 bhp, to the highly developed projectiles of today offering a fearsome 200 bhp, race fans have thronged the roadside banks and watched in awe as the best racing motorcyclists in the world rode the fastest machines of their day around the twists, turns and climbs of the 374 mile Mountain Course, all in pursuit of a coveted Tourist Trophy. This new updated edition covering the 2007 - 2012 races, reveals the event's colourful history through the high-speed activities of great riders such as the Collier brothers, Geoff Duke, Mike Hailwood, Giacomo

Agostini, Steve Hislop, Joey Dunlop, John McGuinness and many others. It also looks at the machines and mechanical developments and race organisation, plus the financial rewards and commercial interests; setting them all in the context of the triumphs and tragedies of a great sporting event that has seen average lap speeds rise from 40 mph to over 130 mph. Written in an easy style, this book reveals the Manx TT's colourful history through its great riders, machines, mechanical developments and race organisation and is superbly illustrated with over 250 colour photographs.

making him the most successful sidecar competitor in the history of the event. He has competed in British and European championships, Grand Prix and other races. This book tells, in his own words, his remarkable story. It describes his victories and defeats, the accidents and the other setbacks he has overcome, and reveals what makes him such an accomplished engineer as well as a racer. Dave Molyneux is the most successful sidecar racer in the history of the TT with 14 wins. He holds the race record for the Sidecar TT at 58 minutes and 59.28 seconds, an average race speed of 115.132 mph over 3 laps, achieved in 2009. As well as dominating the event as a competitor, he has established an exceptional reputation as a sidecar designer and constructor and as a sometimes outspoken commentator on the sport.

Honda: The Golden Age
Matthew Richardson
2024-05-30 When the fledgeling Honda Motor Company wanted to break into Europe, they knew their machines had to prove themselves at the greatest motorcycle race in the world, the Isle of Man TT. At that time part of the World Championship series, the TT attracted the biggest names in the racing world. It was also the toughest and most challenging event of its kind. In 1959, the first Japanese riders to reach the Island experienced a culture shock when they encountered western lifestyles for the first time, and this was

only a few years after the Second World War. Yet they won over young hearts and minds, and helped rebuild bridges. Not only that, Honda machines proved themselves reliable - and fast. They were soon picking up race victory after race victory and the likes of Jim Redman, Luigi Taveri and Mike Hailwood were queueing up to ride them. When they walked away from Grand Prix motorcycle racing in 1967, Honda had won everything there was to win on two wheels at the Isle of Man TT. A legend was born, and the Honda name would go from strength to strength. Yet founder Soichiro Honda never forgot how it all started, and the Isle of Man retains a special place in Honda company history.

Realising the Dream at the TT
Lily Publications 2009-08-12

The story starts when Honda team travelled 6,000 miles from Japan to the Isle of Man for the 1959 Tourist Trophy motorcycle races. But when Honda secured the 125cc manufacturers team award on its debut the mockers were silenced and wins in two 1961 TT races proved that the Japanese factory had become a major force in motorcycling. During the following six years, Hondas boldly innovative four-stroke machinery notched up victories in every solo TT race on the punishing 37.73-mile Mountain Course. After a period away from the TT Honda returned to the regenerated the races, where its UK-based team supported the event more consistently than any other maker and set the pace for them to match. Many of the greatest TT riders have been Honda-powered including Mike Hailwood, Jim Redman, Steve Hislop and John

McGuinness was first to reach 130mph and of course the King of the Mountain himself Joey Dunlop, was the winner of 24 TT races for Honda.
