**Backable** Suneel Gupta 2021-02-23 A groundbreaking book that boldly claims the key to success is not talent, connections, or ideas, but the ability to persuade people to take a chance on your potential. "The most exceptional people aren't just brilliant...they're backable." —Daniel Pink, #1 New York Times bestselling author of *When, Drive and To Sell is Human* No one makes it alone. But there's a reason some people can get investors or bosses to believe in them while others cannot. And that reason has little to do with experience, pedigree, or a polished business plan. Backable people seem to have a hidden quality that inspires others to take action. We often chalk this up to natural talent or charisma...either you have "it" or you don't. After getting rejected by every investor he pitched, Suneel Gupta had a burning question: Could "it" be learned? Drawing lessons from hundreds of the world's biggest thinkers, Gupta discovered how to pitch new ideas in a way that has raised millions of dollars, influenced large-scale change inside massive corporations, and even convinced his eight-year-old daughter to clean her room. Inside Backable are long-held secrets from producers of Oscar-winning films, members of Congress, military leaders, culinary stars, venture capitalists, founders of unicorn-status startups, and executives at iconic companies like Lego, Method, and Pixar. Backable reveals how the key to success is not charisma, connections, or even your résumé, but rather your ability to persuade others to take a chance on you. This original book will show you how.

**So Good They Can't Ignore You** Cal Newport 2012-09-18 In an unorthodox approach, Georgetown University professor Cal Newport debunks the long-held belief that "follow your passion" is good advice, and sets out on a quest to discover the reality of how people end up loving their careers. Not only are pre-existing passions rare and have little to do with how most people end up loving their work, but a focus on passion over skill can be dangerous, leading to anxiety and chronic job hopping. Spending time with organic farmers, venture capitalists, screenwriters, freelance computer programmers, and others who admitted to deriving great satisfaction from their work, Newport

uncovers the strategies they used and the pitfalls they avoided in developing their compelling careers. Cal reveals that matching your job to a pre-existing passion does not matter. Passion comes after you put in the hard work to become excellent at something valuable, not before. In other words, what you do for a living is much less important than how you do it. With a title taken from the comedian Steve Martin, who once said his advice for aspiring entertainers was to "be so good they can't ignore you," Cal Newport's clearly written manifesto is mandatory reading for anyone fretting about what to do with their life, or frustrated by their current job situation and eager to find a fresh new way to take control of their livelihood. He provides an evidence-based blueprint for creating work you love, and will change the way you think about careers, happiness, and the crafting of a remarkable life.
