Artbibliographies Modern

1993 Abstracts of journal articles, books, essays, exhibition catalogs, dissertations, and exhibition reviews. The scope of ARTbibliographies Modern extends from artists and movements beginning with Impressionism in the late 19th century, up to the most recent works and trends in the late 20th century. Photography is covered from its invention in 1839 to the present. A particular emphasis is placed upon adding new and lesser-known artists and on the coverage of foreign-language literature. Approximately

13,000 new entries are added each year. Published with title LOMA from 1969-1971.

Encyclopedia of Twentieth-Century Photography, 3-Volume Set Lynne Warren 2005-11-15
The Encyclopedia of Twentieth-Century Photography explores the vast international scope of twentieth-century photography and explains that history with a wide-ranging, interdisciplinary manner. This unique approach covers the aesthetic history of photography as an evolving art and documentary form, while also recognizing it as a developing technology and cultural force. This Encyclopedia presents the important developments, movements, photographers, photographic institutions, and theoretical aspects of the field along with information about equipment, techniques, and practical applications of photography. To bring this

history alive for the reader, the set is illustrated in black and white throughout, and each volume contains a color plate section. A useful glossary of terms is also included.

Co-Mix Art Spiegelman 2013-09-17
"Designed with Mr. Spiegelman's help, [Co-Mix] has the tall, narrow proportions of Raw...its images form a chronological sampling of Mr. Spiegelman's extraordinary imagination, including his precocious early work, underground comics, preparatory notes and sketches for Maus, indelible covers for The New Yorker, lithographic efforts and much else."—New York Times
In an art career that now spans six decades, Art Spiegelman has been a groundbreaking and influential figure with a global impact. His Pulitzer Prize-winning Holocaust memoir Maus established the graphic novel as a legitimate form and inspired countless cartoonists while his shorter works have enormously expanded the expressive range of comics. Co-

Mix: A Retrospective of Comics, Graphics, and Scraps is a comprehensive career overview of the output of this legendary cartoonist, showing for the first time the full range of a half-century of relentless experimentation. Starting from Spiegelman's earliest self-published comics and lavishly reproducing graphics from a host of publications both obscure and famous, Co-Mix provides a guided tour of an artist who has continually reinvented not just comics but also made a mark in book and magazine design, bubble gum cards, lithography, modern dance, and most recently stained glass. By showing all facets of Spiegelman's career, the book demonstrates how he has persistently cross-pollinated the worlds of comics, commercial design, and fine arts. Essays by acclaimed film critic J. Hoberman and MoMA curator and Dean of the Yale University School of Art Robert Storr bookend Co-Mix, offering eloquent meditations on an artist whose work has been

genre-defining.
