Manuals: Making Connections, 1/e MasteringA&P should only be purchased when required by an instructor. Applying Anatomy & Physiology Concepts through Active Learning Developed as the companion lab manual to Amerman's Human Anatomy & Physiology, Catharine Whiting's lab manual takes an active learning approach that uses a rich variety of hands-on activities, along with guided questions, to engage students and help them apply concepts learned in lecture to lab. The active learning approach to Whiting's Human Anatomy & Physiology Laboratory Manual: Making Connections includes unique hands-on activities that use different learning modes including labeling, sketching, touching, dissecting, observing, conducting experiments, interacting with

groups, and making predictions. Whiting also includes pre-lab assignments to help students better prepare for lab; and post-lab assignments to solidify learning and challenge students to see interrelationships of concepts across topics. Also available with MasteringA&P® This title is also available with MasteringA&P -- an online homework, tutorial, and assessment system proven to help students learn. It helps instructors maximize lab time with customizable, easy-to-assign, automatically graded assessments that motivate students to learn outside of class and to arrive prepared for lab. The powerful gradebook provides unique insight into student and class performance.

Human Anatomy & Physiology Laboratory Manual Catharine C. Whiting 2018-01-12 For the two-semester A&P laboratory course. Fully engage students in their A&P Lab experience Human Anatomy & Physiology Laboratory Manual: Making Connections distinguishes itself from other A&P lab manuals by focusing on and addressing the most common teaching challenges in the lab-getting students to engage in the lab, to prepare for the lab, and to apply concepts in the lab. Catharine Whiting's active learning approach incorporates a rich variety of hands-on activities and guided questions to get students engaged and

asking questions. The 2nd Edition provides new features, such as "What You Need to Know Before You Start this Unit" at the beginning of each Unit and new Pre-Lab Video Coaching Activities to help students learn what they need to review before lab. Developed as the companion to Erin Amerman's Human Anatomy & Physiology, 2nd Edition, Whiting's lab manual reflects the same superb art program and terminology found in the Amerman textbook. Human Anatomy & Physiology Laboratory Manual: Making Connections, 2nd Edition is available in three versions for your students: Main, Cat and Fetal Pig. The Cat and Fetal Pig versions are identical to the Main version except that they include seven additional cat dissection and nine additional fetal pig dissection exercises, respectively, at the back of the lab manual. Also available with Mastering A&P Mastering(tm) is the teaching and learning platform that empowers you to reach every student. By combining trusted author

content with digital tools developed to engage students and emulate the office-hour experience, Mastering personalizes learning and improves results for each student. Mastering A&P assignments support interactive features in the lab manual and include new Pre-Lab Video coaching activities, new Cat Dissection Video and Fetal Pig Dissection Video coaching activities, new fully mobile PAL 3.1 plus PAL 3.1 Customizable Flashcards, Learning Catalytics (tm) , A&P Flix 3D muscle animations, a variety of Art Labeling Questions, Clinical Application Questions, and more. 2022-08-12 For the two-semester A&P laboratory course. Help manage time and improve learning inside and outside of the lab The #1 best-selling Human Anatomy & Physiology Laboratory Manual helps students and instructors manage time inside and outside of the A&P lab classroom and works hand-in-hand with Mastering A&P, the leading online homework and learning program for A&P. The 13th Edition features dozens of new, full-color figures and photos in the review sheets, as well as revamped clinical application questions and critical thinking questions that reinforce the

most important concepts from lab. Encourage students to prepare for lab by assigning recommended Mastering A&P activities for each lab exercise, including 18 pre-lab videos (8 are new to this edition), Building Vocabulary Coaching Activities, exercise review sheet assessment questions, art labeling activities, mobile-ready Practice Anatomy Lab™ 3.1 with customizable flashcards, and more. Thousands of assignment options in the Item Library are closely correlated with the print edition of the manual, making it easier than ever to create homework assignments that are aligned with your lab activities. Continuing to set the standard for the 2-semester A&P laboratory course, the lab manual complies with the illustration and presentation style of the best-selling Marieb/Hoehn Human Anatomy & Physiology text, but can accompany any A&P textbook. New customization options are available through Pearson Collections, as well as three conventional versions: Main

(12th Edition), Cat (13th Edition), and Fetal Pig (13th Edition). Also available with Mastering A&P Mastering™ is the teaching and learning platform that empowers you to reach every student. By combining trusted author content with digital tools developed to engage students and emulate the office-hour experience, Mastering personalizes learning and improves results for each student. Mastering A&P assignments support interactive features in the lab manual, including pre-lab video coaching activities, bone, muscle, and dissection videos, Dynamic Study Modules, Get Ready for A&P, plus a variety of Art Labeling Questions, Clinical Application Questions, and more. Note: You are purchasing a standalone product; Mastering A&P does not come packaged with this content. In Touch With Instructor Needs. In Touch with Educational Needs. In Touch with Technology. Author Terry Martin's thirty years of teaching anatomy and physiology courses, authorship of three laboratory manuals, and active involvement in the Human Anatomy and Physiology Society (HAPS) drove his determination to create a lab manual with an innovative approach that would benefit students. Laboratory Manual for Human Anatomy and Physiology includes a cat version and a fetal pig version. Each of these versions includes sixty-one laboratory exercises, supplemental labs found online, and six cat or fetal pig dissection labs. The Main Version contains no dissection exercises. All three versions

are written to work well with any anatomy and physiology text.

Human Anatomy and Physiology Laboratory Manual

Elaine Nicpon Marieb 1999-07-01 Students and instructors rely on superior quality from Elaine Marieb. This laboratory manual continues to present content that is comprehensive, clear, and compelling. A student-friendly design guides students as they work through the exercises. Includes full-color anatomy and histology atlases, and major dissection exercises. The material is appropriate for one- or two-semester courses. This updated version of the lab manual includes the new PhysioEx V. 2.0 CD-ROM (A(c)2000) at no additional charge. PhysioEx provides a safe electronic environment to conduct experiments that demonstrate complex physiological principles. PhysioEx V. 2.0 includes two additional experiments on respiratory system mechanics and renal physiology, plus a histology tutorial with

hundreds of images at four different levels of magnification with a labeling feature.

comprehensive approach to the

two-semester A&P laboratory course. The stunning, full-color illustrations are adapted from Martini/Nath/Bartholomew, *Fundamentals of Anatomy & Physiology*, Ninth Edition, making this lab manual a perfect companion to that textbook for instructors who want lab manual art to match textbook art. The use of the Martini art also makes this lab manual a strong companion to Martini/Ober/Nath, *Visual Anatomy & Physiology*. This manual can also be used with any other two-semester A&P textbook for those instructors who want students in the lab to see different art from what is in their textbook. This lab manual is available in three versions: Main, Cat, and Pig. The Cat and Pig versions are identical to the Main version but also include nine cat or pig dissection exercises at the back of the lab manual. The Fifth Edition features more visually effective art and abundant opportunities for student practice both in the manual and online. For the first time, this manual comes with

MasteringA&P. The new ²⁰Package Practice Anatomy Lab(tm) (PAL(tm)) 3.0 virtual anatomy program and the new PhysioEx(tm) 9.0 physiology lab simulation program- both housed within MasteringA&P- give students valuable coaching and practice.
